Flight To Enchantment:

The Enchantments of Technology Lee Bailey, 2010-10-01 In *The Enchantments of Technology* Lee Worth Bailey erases the conventional distinction between myth and machine in order to explore the passionate foundations concealed in technological culture and address its complex ethical moral and social implications Bailey argues that technological society does not simply disenchant the world with its reductive methods and mechanical metaphors then shape machines with political motives but is also borne by a deeper subversive undertow of enchantment Addressing examples to explore the complexities of these enchantments his thought is full of illuminating examinations of seductively engaging technologies ranging from the old camera obscura to new automobiles robots airplanes and spaceships This volume builds on the work of numerous scholars including Jacques Ellul and Jean Brun on the phenomenological and spiritual aspects of technology Carl Jung on the archetypal collective unconscious approach to myth and Martin Heidegger on Being itself Bailey creates a dynamic interdisciplinary postmodern examination of how our machines and their environments embody not only reason but also desires

The Eclipse of

Christianity Rupert Shortt, 2024-09-12 A call for Christianity to recover its confidence The mainstream Churches are faltering or even at risk of dying out in their Western and Middle Eastern heartlands Surveys confirm that only a minority of people in a country such as Britain now claim Christian allegiance The pattern is being matched in neighbouring societies At the same time many opinion formers preach secularist ideology with a self confidence shading into dogmatism Others unsure of their moorings feel some residual attachment to spirituality while being sceptical about the existence of God and other articles of belief Yet church teaching remains intellectually robust as well as inspiring a transformative global presence In this major and wide ranging international study both a report on the unsettling consequences of secularisation and a defence of a creed too often belittled by its opponents Rupert Shortt outlines Christianity's fading profile in the present but also argues compellingly that Europe's historic faith remains critical to the survival of a humane culture *Fly Away* Pasquale De
