Том Шиппі

Fljotsdale Saga And The Droplaugarsons:

Routledge Revivals: Medieval Scandinavia (1993) Phillip Pulsiano, Kirsten Wolf, 2017-07-05 First published in 1993 Medieval Scandinavia An Encyclopedia covers every aspect of the region during the Middle Ages including rulers and saints overviews of the countries religion education politics and law culture and material life history literature and art Written by a team of expert contributors the encyclopedia offers those who lack command of the various Scandinavian languages a basic tool for the study of Medieval Scandinavia from roughly the Migration Period to the Reformation With full page maps useful supplementary photos cross references and a comprehensive index this work will be a valuable and absorbing volume for students of the Norse sagas the Viking age and Old English history and literature and for anyone interested in the cultural and historical heritage of Scandinavia

The Hidden Lives of Viking Women Michèle Hayeur Smith, Alexandra Sanmark, 2025-03-21 Analyzes the lives roles and experiences of Viking women highlighting their societal contributions through interdisciplinary perspectives This edited volume brings together an international group of scholars to address the lives roles myths mythology and lived experiences of Viking women as well as the impacts of change on women during the turbulent period of the Viking Age Through interdisciplinary perspectives this is a book dedicated to the lesser known aspects of women s lives as active members of society It provides an innovative way of bringing together work from archaeological anthropological historical and literary perspectives to address questions about women in trade in war in magic in the household and activities that provided women with power and respect in their communities

Portraits of Medieval Europe, 800-1400 Christian Raffensperger, Erin Thomas Dailey, 2024-03-28 This volume provides a collection of imagined lives individuals who no matter their position on the social hierarchy were crucial to the development of medieval Europe and the modern period that followed Based on primary source materials and the latest historical research these literary accounts of otherwise unsourced or under sourced individuals are written by leading scholars in the field The book s approach transcends the limitations of both historical narrative and literary fiction offering a research informed presentation of real people that is enriched by informed speculation and creative storytelling This enriched presentation of the lives of these individuals offers the quickest route to understanding medieval culture society and intellectual thought Crucially the book treats the whole of Europe broadly defined both conventional areas of study such as England and France and also lesser studied but no less important areas such as eastern Europe Iberia and the Balkans The reader of Portraits of Medieval Europe encounters the diversity present in the European past the resulting portraits unique personal and engaging offer not only a wide geographical scope but also perspective on the formation of European society in its fullest form This book is accessible and engaging for students new to medieval history as well as those wishing to expand their knowledge of medieval society

A Century of British Medieval Studies Alan Deyermond, 2007-11-29 This is an authoritative guide to the full range of medieval scholarship undertaken in twentieth century Britain history archaeology language culture Some of the

twenty nine essays focus on changes in research method or on the achievements of individual scholars others are personal accounts of a lifetime s work *Rhetoric in the Rest of the West* Shane Borrowman,Marcia Kmetz,Robert L.

Lively,2010-04-16 While the study of the history of rhetoric has expanded to include an ever growing range of rhetorical traditions lesser known figures and under and un studied texts it has continued to exist in the hermetically sealed binary of West and Rest Rhetorical scholars have begun uncovering the many marginalized rhetorical traditions silenced by the homogenous nature of our histories themselves reading and writing new histories of the rhetorical tradition through frames from gender to geography Despite these substantial challenges to the traditionally received history of rhetoric many voices are still silenced and many spaces are still excluded voices speaking within the spaces of the less than monolithic West itself This silencing and excluding continues perhaps because of assumptions that no texts exist from these marginalized voices or that substantial rhetorical activity was not conducted in these marginalized spaces regardless of already extant evidence of rhetorical activity as diverse as rural civic ethos in Classical Greece and Etruscan influences on Roman rhetoric or long standing passive knowledge of scholarly activity in Medieval Andalusia and Ireland Rhetoric in the Rest of the West attempts to expand the conversation in those gaps in the history of rhetoric by examining the traditions that lost the cultural competition and have been shrouded in the shadow of the rhetorical tradition Medieval Scandinavia Phillip Pulsiano,1993

With full page maps and supplementary photos this encyclopedia covers every aspect of Scandinavia during the Middle Ages including rulers and saints overviews of the countries religion education politics and law culture and material life history literature and art **History, Literature, and Music in Scotland, 700-1560** Russell Andrew McDonald,2002-01-01 McDonald brings together contributions from scholars working in different disciplines but with a common interest in this history and society of Scotland between AD 700 and AD 1560 **The Fictional North** John Butler,Sue

Matheson,2012-03-15 Western culture may have enshrined North as a touchstone by which all other directions are defined but the North is not one but a number of Netherlands like all frontiers the North is in its essence imaginative magicked out of ice and snow muskeg and tundra Storytelling is its generative principle the activity through which the North and Northerners call themselves into being In essays on topics ranging from the Aboriginal justice system in Canada to the search for the Northwest Passage to the cultural paradigms of medieval Iceland The Fictional North examines stereotypes and iconic images of the North the relationship of North to South and ethnographic and fictional models of Northerness This diversity of subjects and methodologies not only introduces readers to the diversity found above the 53rd Parallel but also reflects the catholicity of the North itself Interdisciplinary and timely The Fictional North offers insights into the North s past as well as its present to those interested in circumpolar issues and the areas of culture literature history film sociology and education

Laughing Shall I Die Tom Shippey,2018-05-15 Laughing Shall I Die explores the Viking fascination with scenes of heroic death The literature of the Vikings is dominated by famous last stands famous last words death songs and defiant gestures all

presented with grim humor Much of this mindset is markedly alien to modern sentiment and academics have accordingly shunned it And yet it is this same worldview that has always powered the popular public image of the Vikings with their berserkers valkyries and cults of Valhalla and Ragnarok and has also been surprisingly corroborated by archaeological discoveries such as the Ridgeway massacre site in Dorset Was it this mindset that powered the sudden eruption of the Vikings onto the European scene Was it a belief in heroic death that made them so lastingly successful against so many bellicose opponents Weighing the evidence of sagas and poems against the accounts of the Vikings victims Tom Shippey considers these questions as he plumbs the complexities of Viking psychology Along the way he recounts many of the great bravura scenes of Old Norse literature including the Fall of the House of the Skjoldungs the clash between the two great longships Ironbeard and Long Serpent and the death of Thormod the skald One of the most exciting books on Vikings for a generation Laughing Shall I Die presents Vikings for what they were not peaceful explorers and traders but warriors marauders and storytellers

Skates Made of Bone B.A. Thurber, 2020-03-05 Ice skates made from animal bones were used in Europe for millennia before metal bladed skates were invented Archaeological sites have yielded thousands of examples some of them dating to the Bronze Age They are often mentioned in popular books on the Vikings and sometimes appear in children's literature Even after metal skates became the norm people in rural areas continued to use bone skates into the early 1970s Today bone skates help scientists and re-enactors understand migrations and interactions among ancient peoples This book explains how to make and use them and chronicles their history from their likely invention in the Eurasian steppes to their disappearance in the modern era

Making the Middle Ages Making the Middle Ages is series of monographs and occasionally of collections which aims to open up the rapidly growing and relatively newly recognised field of medievalism the post medieval construction of the Middle Ages in scholarship and the arts to a readership of academics graduate students and in the case of some volumes undergraduates or the general reader The series is devoted to scholarship in the cultural influence of the Middle Ages on England mainland Europe and North America from the sixteenth century to the present day It focuses on two perspectives of medievalism i Mediavistik the origins and history of medieval studies both inside and outside the academy and ii Mediavismus the creation and recreation of the Middle Ages in post medieval art history literature and popular culture Few speakers of English have ever been able to read the Icelandic sagas in the original language and published saga translations have played a major role in shaping attitudes towards Viking Age Scandinavia and the great literary achievements of medieval Iceland in the English speaking world This book is the first publication to provide an extended examination of the history and development of Icelandic saga translations into English from their beginnings in the eighteenth century to today

It explores reasons for undertaking saga translation and the challenges confronting translators. Chapters are devoted to the pioneering saga translations the later Victorian and Edwardian eras the often neglected period of the two World Wars and their aftermath and the upsurge of saga translation in the second half of the twentieth century. The contributions of individual translators and teams are reviewed from James Johnstone in the 1780s through major Victorians such as Samuel Laing George Webbe Dasent and William Morris distinguished twentieth century figures such as Lee M Hollander Gwyn Jones Magnus Magnusson and Hermann Palsson and George Johnston and the great co-operative project which produced *The Complete Sagas of Icelanders* at the century's end. The book concludes with saga translation facing interesting new possibilities and challenges not least those generated by information technology. Book jacket Oral Tradition and Saga Writing Hermann Pálsson, 1999 *Old Norse Myths, Literature and Society* Geraldine Barnes, Margaret Clunies Ross, 2000

Reading Medieval Studies, 1996 **Iceland** Francis R. McBride, 1996 The Republic of Iceland situated near the Arctic Circle comprises one large island and numerous smaller ones. Iceland became independent in 1944 and is a founder member of the Nordic Council and a member of NATO and the Council for Europe. Iceland is the most geologically active country in the world with geysers volcanoes hot springs glaciers and spectacular waterfalls. This descriptive annotated bibliography provides an updated listing of significant books and articles about Iceland. *Сміючись і помру: про життя і смерть видатних вікінгів* Том Шиппі, 2022-01-02 **Kacagva halok meg** Tom Shippey, 2023-10-30.
