*Nature and Culture* Sarah Pilgrim, Jules N. Pretty, 2010-09-23 There is a growing recognition that the diversity of life comprises both biological and cultural diversity But this division is not universal and in many cases has been deepened by the common disciplinary divide between the natural and social sciences and our apparent need to manage and control nature This book goes beyond divisive definitions and investigates the bridges linking biological and cultural diversity The international team of authors explore the common drivers of loss and argue that policy responses should target both forms of diversity in a novel integrative approach to conservation thus reducing the gap between science policy and practice While conserving nature alongside human cultures presents unique challenges this book forcefully shows that any hope for saving biological diversity is predicated on a concomitant effort to appreciate and protect cultural diversity [How to Read a Tree](#) Tristan Gooley, 2023-05-02 Reams of appealing facts make one itch to get outside and right up close to trees rough surfaces and shady cover The Atlantic New York Times bestselling author Tristan Gooley opens our eyes to the secret language of trees and the natural wonders they reveal all around us Trees are keen to tell us so much They ll tell us about the land the water the people the animals the weather and time And they will tell us about their lives the good bits and bad Trees tell a story but only to those who know how to read it In *How to Read a Tree* Gooley uncovers the clues hiding in plain sight in a tree s branches and leaves its bark buds and flowers even its stump Leaves with a pale central streak mean that water is nearby Young low growing branches show that a tree is struggling And reddish or purple bark signals new growth Like snowflakes no two trees are exactly the same Every difference reveals the epic story this tree has lived if we stop to look closely *British wildlife* , 2005 **The Poetics and Politics of Gardening in Hard Times** Naomi Milthorpe, 2019-09-25 How do poets writers and cultural critics contend with and represent the garden or their own gardening as they are changed by austerity Gardening under austerity encompasses a diversity of places spaces practices and actors suburban allotments and zoological gardens Victory diggers and urban foragers human gardeners and the unruly more than human world Theorizing the politics poetics and practices of austerity gardening in twentieth and twenty first century Anglophone cultural texts *The Poetics and Politics of Gardening in Hard Times* explores the variegated impact of austerity in conjunction with the representation of the garden in the national context of England in the mid century and how garden imagery is embedded within and illuminates the political economic and social contexts of literary production **The Birth of Mankind** Elaine Hobby, 2017-03-02 Between 1540 and 1654 *The Byrth of Mankynde* was a huge commercial success Offering information on fertility pregnancy birth and infant care and written in a chatty colloquial style it influenced most other literary works of the period bearing on sex reproduction and childcare Until now this important text has been unavailable except for a microfilm of the 1654 edition For this new annotated edition of the 1560 version Elaine Hobby has modernized the spelling and included informative notes In her critical introduction she not only traces the development of the book from its German origins but

also shows how early modern ideas about the reproductive process combined ancient medieval and contemporary conceptions Combining editorial rigour with a concern for the needs of the informed non specialist Hobby has made available a text that will be useful to scholars and students in a range of academic disciplines including literature history and women s studies     The Meaning of Trees Fred Hageneder,2005-09 Presents full color illustrated photographs that describes the
