Religion paysanne et religion urbaine en Toscane (c. 1250-c. 1450) Charles-M. de La Roncière, 1994 The subject of this volume is that of the establishment and embedding in the Tuscan countryside and especially round Florence of the new forms of piety propagated above all by the Mendicant orders The volume brings together Professor de La Roncière's major articles on this topic both detailed research studies and syntheses Against the background of existing religious attitudes he aims to describe the many new forms of pastoral activity and structures that were instituted and to provide a picture of what the religious side of their life really meant to these communities The final articles extend this analysis to include the city of Florence itself examining the role of the confraternities there and the religious views of its merchants its socio-economic elite Ce volume a pour sujet l'établissement et l'enracinement de nouvelles formes de piété propagées surtout

par les ordres mendiants en pays toscan et plus particulièrement aux alentours de Florence Le volume rassemble les articles les plus importants du professeur de La Roncière sur ce sujet la fois tudes de recherches d'archives et de synthèse C'est sur cet arrière plan d'attitudes religieuses en existence qu'il tente de décrire les nombreuses formes nouvelles d'activités et de structures pastorales qui furent instaurées dans ces communautés et ce que signifiait pour elles le culte religieux de leurs vies Les derniers articles tendent cette analyse la ville de Florence elle-même en y examinant le rôle des confréries et le point de vue religieux de la littérature socio-économique qu'étaient ses marchands **Florence in Transition** Marvin B.
