Compton's Pictured Encyclopedia Guy Stanton Ford, 1922 *Great Museums of Europe* Antonio Paolucci, 2002 These eight emblematic museums all show their roots in the 18th century European idea of an institution representing the complete development of human culture in a microcosm Each of the eight chapters here recounts the history of an individual museum by traveling through its entire history on a path to the collections masterpieces presented as an easy to follow path of spectacular photographs and captions Diverse as their present day collections may be the purest form of the museum can be seen at the core of each institution starting with the Vatican Museums on to the Russian Imperial Collections in the citadel of the Hermitage in Saint Petersburg in the Hapsburg Collections assembled in the Kunsthistorisches Museum of Vienna The Bourbon Collections now in Museo del Prado in Madrid The Napoleonic dream of the Universal Museum leads to the present day structure of the Louvre in Paris as well as its counterpart the British Museum in London founded to accommodate the marble sculptures from the Parthenon that Lord Elgin brought back from Athens And finally the ambition to create a citadel of culture a new Acropolis of universal knowledge is fully present in the Prussian museum system built on the Museumsinsel in Berlin and on a smaller scale in the Rijksmuseum of Amsterdam Great Museums of Europe recaptures a grand impulse of Western civilization that our great achievements in art are a story that can and must be preserved in a comprehensive way so that it is told forever

Alan's Italy Alan J. Greenhalgh,2012-09 In the spring of 2011 it was suggested to me that with the thousands of photos which had been taken by my artist wife Laura Gurton during our many trips to Italy that I produce a program in my hometown on Woodstock Public Access Television Having been to Italy twenty times in an equal number of years with many stories of my experiences and friends I have made over the years it seemed logical that a large number of people would be interested in seeing our images and hearing about my recollections I agreed to begin to put together a show for weekly broadcast on the local television station After months of preparation interrupted by some serious physical illnesses I began to host Alan s Italy weekly at 5 PM on Friday evenings That was the beginning of many adventures with broadcasting live on a station that was strictly maintained by volunteers many of whom had a very substantial technical understanding of the workings of the studio It was at first suggested to me that it would be impossible to produce a weekly show for very long since there were a finite number of photos available to me As it turned out the show became a multifaceted presentation of all things Italian with several guests to interview The audience grew and with my involvement

with Youtube blogs and local continuing education programs my reputation grew Alan's Italy The Birth of a Television Show is the story of my quest to create produce write perform and maintain a weekly show It is a very personal account of all the trials and tribulations that I experienced during the year and a half since the project began Having had a career of forty one years in Mathematics Education with no experience with television production the many challenges I have faced make for a fascinating true life story of how an idea suggested to me out of the blue on a spring day became a local sensation
