Florida Landscape:

Reading the Florida Landscape Robert A. Norman, 2020-09-03 Reading the Florida Landscape offers all levels of nature enthusiasts an opportunity to improve their skills and increase their appreciation of Florida's wonderful outdoors. Great photographs and maps enhance the reading pleasure and diverse and exciting narratives on Florida nature are included. Using interviews with conservation scientists and historical and current case studies, the book blends the skills and knowledge gained from the author's experiences as a physician and an advanced Florida Master Naturalist to discuss how to identify or perhaps diagnose actions and events that have influenced the structure and function of Florida environments. It encourages the reader to identify evidence of land and water use that has occurred in the past to better understand how these have influenced the health and function of ecosystems in the present.

Steven W. Woodmansee CEO and biologist for Pro Native Consulting The standard dream home garden the kind splashed across magazine covers typically features emerald lawns and manicured flowerbeds. But most gardeners soon discover that those picture perfect landscapes require hard work, persistent watering and fertilizing and plenty of pesticides. As more homeowners free themselves from the shackles of regular lawn maintenance they turn to native plants which eventually start to look scruffy and scraggly. While there are plenty of guides for establishing a native landscape there are few comprehensive resources for their maintenance.

In this easy to read practical and honest approach to native plant landscaping, botanist and experienced gardener Ginny Stibolt shares techniques for living with a native landscape and personal lessons learned over the years. Dispelling the myth that native plants require no maintenance, she encourages readers with a simple upkeep schedule that is much more flexible than traditional suburban landscaping. She enumerates the many ecological rewards and covers the basics of gardening before delving into the removal of invasives and other unwanted
