Dobbins, 2020-03-31 Images of the Buddha are everywhere not just in temples but also in museums and homes and online but what these images mean largely depends on the background and circumstance of those viewing them In Behold the Buddha James Dobbins invites readers to imagine how premodern Japanese Buddhists understood and experienced icons in temple settings long before the advent of museums and the internet Although widely portrayed in the last century as visual emblems of great religious truths or as exquisite works of Asian art Buddhist images were traditionally treated as the very embodiment of the Buddha his palpable presence among people Hence Buddhists approached them as living entities in their own right that is as awakened icons with whom they could interact religiously Dobbins begins by reflecting on art museums where many non Buddhists first encounter images of the Buddha before outlining the complex Western response to them in previous centuries He next elucidates images as visual representations of the story of the Buddha's life followed by an overview of the physical attributes and symbolic gestures found in Buddhist iconography A variety of Buddhas Bodhisattvas and other divinities commonly depicted in Japanese Buddhism is introduced and their living quality discussed in the context of traditional temples and Buddhist rituals Finally other religious objects in Japanese Buddhism relics scriptures inscriptions portraits of masters and sacred sites are explained using the Buddhist icon as a model Dobbins concludes by contemplating art museums further as potential sites for discerning the religious character of Buddhist images Those interested in Buddhism generally who would like to learn more about its rich iconography whether

encountered in temples or museums will find much in this concise well illustrated volume to help them behold the Buddha

**The Straw Sandal** Kyōden Santō, 2008-01-31 Carmen Blacker's spirited translation of Santo Kyoden's Mukashi banashi inazuma byōshi from which the title The Straw Sandal is taken considered by Aston to be his masterpiece reveals a multi layered and fascinating tale of revenge Japanese style thereby providing a classic example of this popular genre within Japanese literature Aston makes the point that the plot of this late eighteenth century novel developed over twenty chapters or episodes is so complicated that it is impossible to give an adequate summary But he goes on to promise several murders a harakiri and other suicides terrific combats hairbreadth escapes strange meetings and surprising recognitions In addition there are scenes of witchcraft and enchantment with dreams magic terrors and ghosts who rove by night The Straw Sandal which contains most of the original black and white woodblock prints together with textual notes added by the translator will surely be widely welcomed both in the world of literature as well as that of Japanese Studies

*Fictions of Enlightenment* Qiancheng Li,2003-12-31 Fictions of Enlightenment is the first book to examine the fascinating and intricate relationship between Buddhism and the development of Chinese vernacular fiction Qiancheng Li brings Buddhist models to bear on the vision structure and narrative form of three classics of late imperial literature Journey to the West Tower of Myriad Mirrors and Dream of the Red Chamber arguing that by fashioning their plots after the narratives of certain Mah y na sutras the novelists transformed Buddhist concepts into narrative structures Within the traditional Chinese novel Li even defines a new genre the fiction of enlightenment

*Dao Companion to Chinese Buddhist Philosophy* Youru Wang,Sandra A. Wawrytko,2019-01-31 Too often Buddhism has been subjected to the Procrustean box of western thought whereby it is stretched to fit fixed categories or had essential aspects lopped off to accommodate vastly different cultural norms and aims After several generations of scholarly discussion in English speaking communities it is time to move to the next hermeneutical stage Buddhist philosophy must be liberated from the confines of a quasi religious stereotype and judged on its own merits Hence this work will approach Chinese Buddhism as a philosophical tradition in its own right not as an historical after thought nor as an occasion for comparative discussions that assume the west alone sets the standards for or is the origin of philosophy and its methodologies Viewed within their own context Chinese Buddhist philosophers have much to contribute to a wide range of philosophical concerns including metaphysics epistemology ethics philosophy of language philosophy of mind and philosophy of religion even though Western divisions of philosophy may not exhaust the rich contents of Chinese Buddhist philosophy

**Memory and Hope** Alon Goshen-Gottstein,2018-08-08 This book tackles the core problem of how painful historical memories between diverse religious communities continue to impact even poison present day relations Its operative notion is the healing of memory developed by John Paul II Chapters explore how painful memories of yesteryear can be healed and so address some of the root causes Strategies from six different faith traditions are brought together in what is in some ways a cross religious brainstorming session that identifies tools to improve present day relations At the other pole of the conceptual axis of this book is the notion of hope If memory informs our past hope sets the horizon for our future How does the healing of memory open new horizons for the future And what is the notion of hope in each of our traditions that could lead to a common vision of good Between memory and hope this book seeks to offer a vision of healing that can serve as a resource in contemporary interfaith relations Contributors Rahuldeep Singh Gill Alon Goshen Gottstein Maria Reis Habito Flora A Keshgegian Anantanand Rambachan Meir Sendor Muhammad
