Statement United States. National Park Service,2000 **The California Native Landscape** Greg Rubin,Lucy Warren,2013-03-05 Water shortages and water rationing are commonplace throughout California rendering expanses of lawn and thirsty nonnative plants unsustainable The California Native Landscape addresses both concerns by showing homeowners how to succeed with natives and showing them how lush colorful and thriving their landscape can be The authors stress the importance of smart garden design and combining the right plants to promote the natural symbiosis that occurs within plant communities Native plants also play an important role in creating fire resistant landscapes and this new book has cutting edge information on this crucial topic refuting the myth that natives are more fire prone than nonnatives With its unique combination of proven techniques environmental wisdom and inspiring design advice this is an essential resource for all California gardeners who want to create a beautiful ecologically appropriate and resource conserving home landscape General Management Plan & Environmental Impact Statement ,2000 Valuing Chaparral Emma C. Underwood,Hugh D. Safford,Nicole A. Molinari,Jon E. Keeley,2018-04-09 Chaparral shrubland ecosystems are an iconic feature of the California landscape and a highly biodiverse yet highly flammable backdrop to some of the fastest growing urban areas in the United States Chaparral type ecosystems are a common element of all of the world s Mediterranean type climate regions of which California is one yet there is little public appreciation of the intrinsic value and the ecosystem services that these landscapes provide Valuing Chaparral is a compendium of contributions from experts in chaparral ecology and management with a focus on the human relationship with chaparral ecosystems Chapters cover a wide variety of subjects ranging from biodiversity to ecosystem services like water provision erosion control carbon sequestration and recreation from the history of human interactions with chaparral to current education and conservation efforts and from chaparral restoration and management to scenarios of the future under changing climate land use and human population Valuing Chaparral will be of interest to resource managers the research community policy makers and the public who live and work in the chaparral dominated landscapes of California and other Mediterranean type climate regions **Shrublands** David Burnie,2011 Introduces some animals and plants that live in areas too dry for forests but too wet to be deserts *The Drought-Defying California Garden* Greg Rubin,Lucy Warren,2016-04-06 A must have for every gardener in California looking for a new way to garden in a changing climate In recent years California has been facing extreme drought and in 2015 they passed state wide water restrictions that affect home owners Unfortunately the drought is only going to get worse and gardeners who aren t willing to abandon their beloved pastime entirely are going to have to learn how to garden with the absolute minimum of water The Drought Defying California Garden highlights the best 230 plants to grow shares advice on how to get them established and offers tips on how to maintain them with the minimum amount of water All of the plants are native to California making them uniquely adept at managing the harsh climate and include perennials annuals shrubs trees and succulents **Flowering Plants** Nancy Dale,1986 Point Reyes National Seashore and North District of Golden Gate
