Special Publication United States. Office of Education, 1963 **Pakistan Affairs** , 1953 How Dark Is My Flower Leith Morton, 2023-01-30 The poetry of Yosano Akiko covers all the many and varied aspects of the experience of love from early romantic encounters between the lover and beloved to the intimate pleasures of mutual infatuation and then true love The journey outlined in Akiko's verse also grapples with jealousy and unrequited passion as

Akiko's poem narrative treats the rivalry between herself and her best friend the poet Yamakawa Tomiko for the affection of the dashing young literary lion Yosano Tekkan who later became Akiko's husband. Thus *How Dark Is My Flower* by Yosano Akiko and *The Invention of Romantic Love* tells a number of stories a real life romance unfolds in the poetry of these three poets examined in the book as well as the story of the journey from romanticism to modernism undertaken by early 20th century Japanese poetry. *How Dark Is My Flower* emphasizes the astonishing innovations in diction and style not to mention content in Akiko's work that transformed the tanka genre from a hidebound and conservative mode of verse to something much more daring and modern. This book pays particular attention to poetry particularly the tanka genre in the evolution of modernism in Japanese literature and breaks new ground in the study of modern Japanese literature by examining the invention and evolution of the concept of romantic love. **EastWest**, 1987 *Catalog of Copyright Entries* Library of Congress.

With the progress of social civilization social science and its research are becoming more and more important. Theoretically and practically the study of social phenomena and social problems and the development of prosperous social sciences are the eternal themes of human beings. At present social science research and its results can hardly meet the needs of social development especially the unscientific evaluation of social science results which has aroused great concern from all walks of life and has produced dirt and questions on social science thus affecting the proper development of social science. Max Weber once said that the most important function of social science in modern times is to keep people clear headed and to resist the delusions of prophetic legislators. Humanities and arts are the process of perceiving realizing thinking manipulating and expressing objective or subjective objects through capturing and excavating feeling and analyzing integrating and applying or displaying the stage results in the form obtained through feeling seeing hearing smelling touching. The social sciences and humanities and arts contain content that will directly affect our lives and the way society functions. And by reacting to today's increasingly intricate problems and situations through systematic and professional discussions they will further contribute to the improvement of institutions and the development of society. By thinking about issues and looking at problems and the world from different perspectives by putting the two together it may be possible to have more comprehensive appropriate and better responses for example the development of laws requires a deeper understanding of the environment in which they are implemented international trade requires a certain understanding of the customs of different countries and the development of tax and economic policies requires a certain understanding of the population consumer demand etc. *Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986*, 2002 *Catalog of Copyright Entries.
