*Popular Music, Gender and Postmodernism* Neil Nehring,1997-03-20 Popular Music Gender and Postmodernism begins by tracing the migration of cynical academic ideas about postmodernism into music journalism The result has been a widespread fatalism over the presumed ability of the music industry to absorb any expression of defiance in hiphop and rock Commercial incorporation supposedly makes a charade of musical outrage somehow disconnecting anger in music from any meaning or significance Author Neil Nehring documents the considerable damage done by the journalistic employment of this tenet of postmodern theory particularly in the case of the late Kurt Cobain of Nirvana whose emotional intensity was repeatedly belittled for its purported incoherence As a rebuttal to academic postmodernism and its exploitation by the mass media Popular Music Gender and Postmodernism emphasizes that emotion and reason are mutually interdependent Though mistakes can occur in the conscious choice of an object at which to direct one s feelings the preverbal appraisal of social situations that generates emotions is always perfectly rational Nehring also surveys work in literary criticism psychology and especially feminist philosophy that argues on the basis for the political significance of anger even prior to its full articulation The emotional performance in popular music he concludes cannot be discounted on the grounds for example that lyrics such as Cobain s are difficult to understand After detailing more and less progressive approaches to emotion in music criticism Nehring focuses on recent punk rock by women including the Riot Grrrls Fictions of State Patrick Brantlinger,2019-06-30 In this ambitious book Patrick Brantlinger offers a cultural history of Great Britain focused on the concept of public credit

from the 1694 founding of the Bank of England to the present He draws on literary texts ranging from Augustan satire such as Gulliver s Travels to postmodern satire such as Martin Amis s Money A Suicide Note All critique the misrecognition of public credit as wealth The economic foundations of modern nation states involved national debt public credit and paper money Brantlinger traces the emergence of modern imperial Great Britain from those foundations He analyzes the process whereby nationalism both the cause and the result of wars and imperial expansion multiplied national debt and produced crises of public credit resolved only through more nationalism and war During the first half of the eighteenth century conservatives attacked public credit as fetishistic and characterized national debt as alchemical From the 1850s the stabilizing theories of public credit authored by David Hume Adam Smith Henry Thornton and others helped initiate the first social science economics In the nineteenth century literary criticism both paralleled and questioned early capitalist discourse on public credit and nationalism while the Victorian novel refigured debt as the individual private credit and debt During the era of high modernism and Keynesian economics the notion of high culture as genuine value recast the debate over money and national indebtedness Brantlinger relates this cultural historical trajectory to Marxist poststructuralist and postcolonial theories about the decline of the European empires after World War II the global debt crisis and the weakening of western nation states in the postmodern era
