Sunera Thobani, 2020-12-10 The current political standoffs of the War on Terror illustrate that the interaction within and between the so called Western and Middle Eastern civilizations is constantly in flux A recurring theme however is how Islam and Muslims signify the Enemy in the Western socio cultural imagination and have become the Other against which the West identifies itself In a unique and insightful blend of critical race feminist and post colonial theory Sunera Thobani examines how Islam is foundational to the formation of Western identity at critical points in its history including the Crusades the Reconquista and the colonial period More specifically she explores how masculinity and femininity are formed at such pivotal junctures and what role feminism has played in the wars against radical Islam Exposing these symbiotic relationships Thobani explores how the return of religion is reworking the racial gender and sexual politics by which Western society defines itself and more specifically defines itself against Islam Contesting Islam Constructing Race and Sexuality unpacks conventional as well as unconventional orthodoxies to open up new spaces in how we think about sexual and racial identity in

the West and the crucial role that Islam has had and continues to have in its development

Clean of Heart Rosemarie Scott, 2006 Clean of Heart is written for practicing Catholics who accept all the teachings of the Church yet are still ensnared by pornography and self abuse There is hope Through the Sacraments God provides all the grace one needs to become pure No matter how long one has indulged in pornography or how deep one has sunk into the mire of vice Our Lord can still break the addiction What makes Clean of Heart different First it is written from a Catholic point of view While Evangelical Christians have many books and programs for pornography addicts there are few titles on the market for Catholics Clean of Heart consists of forty three daily meditations which draw from the power of the Sacraments and the wisdom of the Saints elements lacking in many Evangelical books Second Clean of Heart is a surprisingly chaste book It contains no obscenities or explicit testimonies which may be an occasion of sin for some The focus is on attaining a clean heart rather than recalling past sins

Shattered Tablets David Klinghoffer, 2007-08-21 Is morality based on some essential truth or is it defined by society In this highly original critique of American social mores and popular culture David Klinghoffer argues that the Ten Commandments are essential to maintaining a morally healthy society With the meticulousness of a scholar he begins by excavating the meaning of the Commandments Drawing on the millennia old rabbinical work Mechilta he explains that the Decalogue was written on two tablets to show that when a country neglects the Commandments written on the first tablet those having to do with the relationship between God and people the interpersonal relationships described on the second tablet suffer irreparable damage as well Addressing such timely topics as the controversy over public displays of the Commandments and the battles over intelligent design Klinghoffer demonstrates that Christians and Jews are united in their opposition to the pagan aspects of our culture In the tradition of Hebrew prophets like Jeremiah and Isaiah he describes our failings with humor and compassion but also with anger and disappointment An unusual incisive perspective on the role of religion in society Shattered Tablets is sure to spark debate In the end Klinghoffer argues that by shrugging off the Bible as a guide and turning toward secularism America has created a crude cruel and dishonest national life

Luther on Faith and Love Sun-young Kim, 2014-10-01 There has been a distinct tendency in modern scholarship to underestimate Luther s teaching on love by overemphasizing his teaching on justification Calling this tendency into question this volume advances the thesis that Luther s teaching on faith and love operates as the overriding thematic pair in the dynamics of Christ and the law structurally and conceptually undergirding the 1535 Galatians commentary The research situates itself in the landscape of Luther scholarship via a special attention to Finnish Luther scholars and scholarship The project argues that in the discussion of proper righteousness and holiness Luther s redefined
