Structure of the World Compared to a Bubble Anne Waldman, 2004 The Stupa of Borobudur in Java is one of the architectural wonders of the world designed as both a mandala and as an aid for the Buddhist pilgrim that can be read as a holy book It has inspired Anne Waldman to create a work which is at once a walking meditation a cultural intervention a recovery of a sacred site and a take on contemporary reality and how the busy monkey brain as it is called in Buddhism works and travels Exploratory and meditative even playful at times it expands the sense of invocation and incantation that Waldman is celebrated for while also reflecting an engaged political cultural awareness
