William Blake and the Productions of Time Andrew M. Cooper, 2016-12-05 Challenging the idea that a writer's work reflects his experiences in time and place Andrew M Cooper locates the action of William Blake's major illuminated books in the ahistorical present an impersonal spirit realm beyond the three dimensional self Blake Cooper shows was a formalist who exploited eighteenth century scientific and philosophical research on vision sense and mind for spiritual purposes Through irony dialogism two way syntax and synesthesia Blake extended and refined the prophetic method Milton forged in Paradise Lost to bring the performativity of traditional oral song and storytelling into print Cooper argues that historicist attempts to place Blake's vision in perspective as opposed to seeing it for oneself involve a deeply self contradictory denial of his performativity as a poet artist Rather Blake's expansion of linear reading into a space of creative self conscious collaboration laid the basis for his lifelong critique of dualism in religion and science and anticipated the non Euclidean geometrics of twentieth century Modernism

William Blake and Gender Magnus Ankarsjö, 2015-01-27 The closing years of the eighteenth century were the particular domain of literary radicals whose work challenged ideas on gender and sexuality During this transitional period the poetry of William Blake reflected the changing mores of society as well as his own developing notions of gender This work presents an in depth exploration of gender issues in Blake's three epic poems The Four Zoas Milton and Jerusalem The opening chapter discusses basic concepts such as notions of apocalypse utopia and gender all essential to the author's reading of Blake Background regarding the literary atmosphere of the time which included influence from the tradition of dissent English Jacobinism and early feminism is also included effectively setting the context for Blake's work The book then examines the poems in chronological order It concentrates particularly on male and female activity within each work refuting the common assumption that Blake was anti feminist while exploring the symbolism of the poetry Blake's repeated theme of the struggle between the sexes receives special emphasis as does the progress of his gender vision through the three poems

Glorious Incomprehensible Sheila A. Spector, 2001 Traces the evolution of hebraic etymologies and mystical grammars as indicators of a profound shift in Blake's subjective consciousness from the earliest prose tracts worked on before 1790 to the last years of his life when he was still completing Jerusalem

Blake and the City Jennifer Davis Michael, 2006 Though usually classified as a Romantic Blake subverts and dissolves the binaries on which Romanticism turns self and other art and nature country and city Rather than reject the city outright like many of his contemporaries Blake embraces it as the intricate workshop of human imagination Each chapter of this book focuses on a specific text of Blake's that illustrates a particular conception of metaphorical embodiment of the city These shifting metaphors emphasize the construction of all human environments and the need for imaginative labor to build and interpret them This study seeks to bridge a gap between transcendent and historicist readings of Blake while at the same time challenging assumptions that still color our view of the city in the twenty first century Jennifer Davis Michael is Associate Professor of English at the University of the South
