Flexible Learning in Action Rachel Hudson, Oates Lyn, Sian Maslin-Prothero, 2014-05-12 First Published in 1997 Pressures to find ways of delivering courses to new markets lifelong learners and part time students have all contributed to the growth in finding ways of delivering flexible learning This book provides case studies to illustrate the diversity of approaches and gives advice on good practice The case studies paint a broad picture of flexible learning developments in higher education in the United Kingdom Australia and the United States of America Several trends concerning the introduction of flexible learning have emerged and the contributors examine strategies that have been developed at an institutional or departmental level for supporting flexible learning initiatives *Flexible Learning in Higher Education* John Arfield, Keith Hodgkinson, Alison Smith, Winnie Wade, 2013-10-18 Analyzing the collective experiences of staff from a variety of departments within organizations of higher and further education this study demonstrates how flexible learning strategies have been adopted to face new challenges **Flexible Learning in an Information Society** Badrul Huda Khan, 2007-01-01 This book uses a flexible learning framework to explain the best ways of creating a meaningful learning environment This framework consists of eight factors institutional management technological pedagogical ethical interface design resource support and evaluation a systematic understanding of these factors creates successful flexible learning environments Provided by publisher **Flexible Learning in an Information Society** Khan, Badrul H., 2006-08-31 This book uses a flexible learning framework to explain the best ways of creating a meaningful learning environment This framework consists of eight factors institutional management technological pedagogical ethical interface design resource support and evaluation a systematic understanding of these factors creates successful flexible learning environments Provided by publisher Flexible Pedagogy, Flexible Practice Elizabeth J. Burge, Chère Campbell Gibson, Terry Gibson, 2011 Flexibility has become a watchword in modern education but its implementation is by no means a straightforward matter *Flexible and Distance Learning in Higher Education* sheds light on the often taken for granted assumptions that inform daily practice and examines the institutional dynamics that help and hinder efforts toward flexibility Contributors to the volume were asked to reflect critically on a series of questions including What precisely is flexible learning Who or what is driving the flexibility agenda and for whose benefit And who or what is resisting it What challenges must be overcome in order to achieve flexibility and what are some of the compromises it can entail International in scope with authors from North America the United Kingdom Australia and New Zealand South Africa Singapore and Japan *Flexible and Distance Learning in Higher Education* offers a wealth of theoretical insights and practical experience that will be invaluable to anyone seeking to extend the reach of higher education *Innovations in Open and Flexible Education* Kam Cheong Li, Kin Sun Yuen, Billy Tak Ming Wong, 2018-03-07 This book covers a broad range of innovations in education such as flipped classrooms the educational use of social media mobile learning educational resources and massive open online courses as well as theoretical

discussions and practical applications in the use of augmented reality and educational technology to improve student engagement and pave the way for students future studies and careers The case studies and practical applications presented here illustrate the effectiveness of new modes of education in which the latest technologies and innovations are widely used in the global context Accordingly the book can help develop readers awareness of the potential these innovations hold thus expanding their expertise and stimulating critical thinking as to how new technologies have made learning and teaching easier in various educational settings

Understanding Online Instructional Modeling: Theories and Practices

Zheng, Robert Z., Ferris, Sharmila Pixy, 2007-10-31 Higher education is currently undergoing significant changes and conditions in higher education reflect changing financial social and political conditions which affect both faculty and students Both the rising costs of education and changes from brick and mortar to technologically driven programs often lead to a change from the traditional space and time bound institution to ones that offer cost effective technologically enhanced programs Online learning has become an integral and expansive factor in higher education both in distance learning and as an adjunct to the traditional classroom Understanding Online Instructional Modeling Theories and Practices focuses on both theoretical and practical aspects of online learning by introducing a variety of online instructional models as well as best practices that help educators and professional trainers to better understand the dynamics of online learning

The Convergence of Distance and Conventional Education Roger Mills, Alan Tait, 2002-03-11 This volume of essays from leading British North American and Australasian contributors looks at the issues of the convergence of distance and conventional education The term convergence refers to the breaking down of barriers between open and distance learning and conventional institutions and the creation of more and more institutions working across a range of modes Such convergence has been driven by a number of factors including the new technologies for teaching and learning the impact of lifelong learning policies the entry of larger than ever numbers of adult part time students into tertiary education and the demands of both employers and individuals for professional and work related education throughout their working lives The fourteen chapters engage critically with a range of aspects of convergence including how well is open and distance learning carried out by conventional institutions for which it may continue for a lengthy period to be seen as of secondary importance to what extent will open and distance learning be more effectively carried out by conventional institutions able to offer a variety of modes to a wide range of learners how well will the variety of learners be served by systems that are converging what are the managerial issues at institutional level where converging systems are being developed
