The Concept of Work Herbert A. Applebaum,1992-01-01 Se analiza el concepto de trabajo desde el punto de vista de la civilizaci n occidental Se ofrece una proyecci n de lo que puede ser el trabajo en el futuro basado en las nuevas tecnolog as y en el contexto de las nuevas condiciones sociales creadas por las modernas culturas industriales **The Journey of Life** Thomas R. Cole,1992-11-27 The Journey of Life envisions growing up and growing old as a voyage down a river flowing inexorably to the sea With this image of the human life cycle the author explores the historical shoreline of later life charting its cultural forms and sounding their depths The result is both a cultural history of aging and a contribution to public dialogue about the meaning and significance of later life The core of the book shows how central texts and images of Northern **Work, Family and Religion in Contemporary Society** Nancy Tatom Ammerman,Wade Clark Roof,2014-02-04 Until recently religious institutions have been organized to suit the traditional American family where the wife stayed at home caring for children Today churches and synagogues are beginning to adapt to the reality of the American

family dual career marriages high levels of divorce interfaith marriages partnerships that may not be marriages Religious organizations must serve families that don't fall into the Ozzie and Harriet mold The first group of papers in this edited volume documents changing trends in the connection between religion work and the family In the second part of the book we see how changing families and flexible congregations are experimenting with new forms of religious life *The SAGE Handbook of Aging, Work and Society* John Field, Ronald J Burke, Cary L Cooper, 2013-09-19 Aging has emerged as a major and urgent issue for individuals organisations and governments of our time In this well timed and comprehensive handbook key international contributors to the field of study come together to create a definitive map of the subject Framed by an authoritative introductory chapter the SAGE Handbook of Aging Work and Society offers a critical overview of the most significant themes and topics with discussions of current research theoretical controversies and emerging issues divided into sections covering Key Issues and Challenges The Aging Workforce Managing an Aging Workforce Living in an Aging Society Developing Public Policy **Short-time Compensation** Esther R. Johnson, 1987 *The Sociology of Time* Jiří Šubrt, 2021-10-26 In a critical comparative study of the sociological literature this book explores the term time and the various interconnections between time and a broad cluster of topics that create a conceptual labyrinth Various understandings of time manifest themselves in the context of many individual social problems there is no single vision in sociology of how to grasp time and address within social theory This book therefore attempts to define an approach to the concept of time and its associated terms duration temporality acceleration compression temporal structures change historical consciousness and others The volume is guided by a critical engagement with three main questions a the formation of human understanding of time b the functioning of temporal structures at different levels of social reality c the role and place of time in general sociological theory *Freedom and Constraint* Fred Coalter, 2019-04-24 First published in 1989 In the climate of long term unemployment early retirement and technology that is seen to threaten jobs leisure has been presented as the solution to a multitude of social problems The essays in this collection represent the most important arguments on the problems myths and misunderstandings of leisure Arguing from a range of positions some sceptical others more idealistic they look at the complexities of this field and the social and political problems that surround it No single argument dominates What emerges is a live wire debate on class and gender employment and economic status age and education which brings the discussion of leisure controversially up to date The book based on papers presented to conferences of the Leisure Studies Association divides into sections on leisure and social change the relationship between leisure and social structures and the tension between leisure and employment It takes a critical look at leisure in Britain Sweden the Netherlands and the USA and at the paradoxes that will determine its future Whilst refusing to see leisure as a synonym for social progress and liberalization it argues that the quality of leisure reflects the quality of society itself **Unemployment Insurance Occasional Paper**, 1987 **Sociological Life Course Research** Matthias Wingens, 2022-08-04 This introductory book

provides an insight into sociological life course research and informs about its theoretical assumptions analytical concepts and main results Sociological life course research like biographical research has developed into an independent and fruitful field of research since the end of the 1960s It is true that half a century earlier in their famous study of *The Polish Peasant in Europe and America* 1918 20 Thomas and Znaniecki had already used life records to examine the connection between social change social structures and the life histories of individuals However such a research perspective was supplanted by other methodological conceptual approaches to empirical social research for over fifty years It was not until the 1960s that sociological interest in life course and biographical theoretical issues reawakened Today life course research is considered one of the most important conceptual innovations in sociology in recent decades

The content The life course as a social construction What is life course research The life course as an institution Collective life courses generations cohorts and social change Structures of the life course Life course research a conceptual perspective Life course research quo vadis The author Prof Dr Matthias Wingens teaches sociology at the University of Bremen Bremen International Graduate School of Social Sciences BIGSSS

Aging and Leisure Michael L. Teague, Richard D. MacNeil, 1992 *The New Spirit of Capitalism* Luc Boltanski, Eve Chiapello, 2018-01-16 New edition of this major work examining the development of neoliberalism In this established classic sociologists Luc Boltanski and Eve Chiapello get to the heart of contemporary capitalism Delving deep into the latest management texts informing the thinking of employers the authors trace the contours of a new spirit of capitalism They argue that beginning in the mid 1970s capitalism abandoned the hierarchical Fordist work structure and developed a new network based form of organization founded on employee initiative and autonomy in the workplace a putative freedom bought at the cost of material and psychological security This was a spirit in tune with the libertarian and romantic currents of the period as epitomized by dressed down cool capitalists such as Bill Gates and Ben and Jerry and as the authors argue a more successful pernicious and subtle form of exploitation In this new edition the authors reflect on the reception of the book and the debates it has stimulated

Andre Gorz Conrad Lodziak, Jeremy Tatman, 1997-11-20 Widely regarded as a major contemporary theoretician Andre Gorz's critique of social formations offers both a direction and meaning to the current technological revolution The absence of English texts focussing on Gorz should make this reader an accessible introduction to his work The book traces the development of Gorz's political and philosophical theory over a period of more than four decades His influence on European intellectual and political culture is examined and the work focuses also on Gorz's own formative influences in the development of his perspective in particular his relationship with Sartre Gorz's accounts of the failure of the uprising in May 1968 is assessed and the book illustrates how this heralded the transition towards the search for new movements to engage in emancipatory socialism In particular it addresses Gorz's growing concern with ecological matters which provided the foundation for his contemporary writing

Aging and Life Arthur N. Schwartz, Cherie L. Snyder, James Alfred Peterson, 1984 *Our Aging Society* Alan J. Pifer, Lydia Bronte, 1986 In sounding

alarm about the population challenges we face in the next five decades the essays here written by a wide variety of experts offer constructive proposals for meeting these challenges on both personal and public policy levels **A Covenantal Imagination** William Johnson Everett, 2021-12-15 This harvest of articles drawn from William Johnson Everett's career of teaching and research on four continents and in a variety of institutions shows the breadth depth and diversity of his interests Like spotlights in the wider field of Christian social ethics they illuminate the key threads that have held together an emerging tapestry of thought woven around the powerful concept of covenant Whether lifting up concepts of covenant federalism and corporation the oikos of work family and faith the public nature and mission of the church or the ethical meaning of journey metaphors his rich and artful style leads us into thinking more deeply about the way our lives are joined in a covenantal imagination about a more just and sustainable world
