European Dream and Reluctant Integration in the 21st Century Hungdah Su (蘇煌達), 2020-10-01 To avoid a repeat of those nationalist nightmares a common European Dream emerged after WWII which has since developed into some essential doctrines of European integration This dream inspired institutionalist context has framed intergovernmental bargaining sectoral spillovers and transnational cooperation in European integration The powerful European Dream has even encouraged Europeans toward closer integration though they were quite often very reluctant to go further This dream driven approach and reluctant runner s model have highlighted some fundamental realities of European integration extremely inspiring for the future of the EU and the ongoing Asian regionalism This book consists of three parts and thirteen chapters It aims to explain European integration the EU s role in global governance and the EU s impact upon Asian regionalism with the help of the European Dream approach and reluctant runners model Trump s unilateralism the rising tensions between the US and PRC and the COVID 19 pandemic may be a turning point for world politics Both globalization and global governance have consequently slowed down giving place to regionalism and inter regionalism This book hopes to contribute to the rising debate over European integration Asian regionalism and EU Asian

inter regionalism *Negotiating Flexibility in the European Union* A. Stubb,2002-04-15 Alexander Stubb a participant in the 1996 97 and 2000 Intergovernmental Conferences analyzes the evolution of flexible integration from the early 1970s to the present day and beyond He focuses in the process of negotiations which led to the institutionalisation of flexibility in the Amsterdam and Nice Treaties This book provides a valuable insider s view on historical decisionmaking in the European Union

How to Democratize the European Union...and Why Bother? Philippe C. Schmitter,2000-04-12 A contradictory creation indeed the European Union has most of the institutions of a modern democracy yet it does not function as one Moreover its growing scope of activity and supranational decision making processes are undermining the legitimacy of democracy in its member states Much has been written about this double democratic deficit but surprisingly little thought has been given to what to do about it _short of drafting and ratifying a new federal constitution In this provocative book Philippe C Schmitter explores both the possibility and the desirability of democratizing the EU He argues that as a non state and a non nation it will have to invent new forms of citizenship representation and decisionmaking if it is ever to democratize itself The author also contends that the timing and political context work against a full scale constitutionalization of the process He proposes a number of modest and some less modest reforms that could improve the situation in the near future and eventually lead to a genuine Euro democracy

Regional Economic Development in the Balkan Region Teoman Duman,Erkan Ilgün,Merdžana Obralić,2016-01-14 This edited volume brings together original scientific studies on current economic and developmental issues in the Balkan region and is composed of papers by 25 authors from seven different countries The Balkan region has gained significant interest in recent years due to its location and strategic position representing a doorway to Europe and the region s stability and progress have direct consequences on various European countries Because of this strategic position there is currently much debate regarding a potential partnership of the Balkan states with the European Union This book offers insights into the current economic and developmental status of the countries in this region offering a series of chapters that analyse the area from a variety of perspectives It begins with a discussion on the recent history of the region especially with reference to the former Yugoslavia and its break up after the turbulence experienced in 1990s Other sections are complementary to each other in that they offer comparisons of the Balkan states in their economic progress at the micro and macro levels Topics such as European integration policies and effects economic transition regional trade tax incentive policy regional capital markets regional development agencies and systems remittances and foreign aid contributions import export policies fiscal policies analysis of regional microfinance and the tourism sectors are explored in detail throughout the book

Baldwin, 2001 EU member nations must decide whether to ratify the Nice Treaty This report written to inform these decisions is highly critical of the Treaty but argues that it should be passed since it is repairable and rejecting it would delay Eastern enlargement It proposes two emergency repairs to the Treaty The authors marshal the best available empirical evidence and analytic techniques to show that the Treaty fails to meet its goal of adjusting EU decision making to the realities of a Union with 27 members Far from maintaining the EU's ability to act after enlargement the authors argue that the Nice reforms reduce EU27 decision making efficiency below what it would have been with no reform Unless the Treaty is mended future integration will be guided by intergovernmental initiatives in which large members play a large role due to their economic dominance The Treaty also fails to resolve the ECB's numbers problem enlargement without reform would also damage the ECB's decision making capacity The Treaty does include an enabling clause to help solve this problem the report analyses the possible solutions and proposes specific reforms *The Political Economy of European Integration* Erik Jones, Amy Verdun, 2005 This book provides an accessible introduction to diverse political economy perspectives on different aspects of European integration It presents a critical appraisal of how scholars in the EU and US use theory to understand European integration **Institutional Challenges in Post-Constitutional Europe** Catherine Moury, Luís de Sousa, 2009-06-09 Brings together leading experts in the field to explore how the European Union's institutional structure rules and processes should be shaped in order to respond to the old and new challenges it is facing British Foreign Policy Laurence Martin, John C. Garnett, 1997-01-01 Has the 20th century been one of steady decline for British foreign policy Can there be a distinct British foreign policy in age of regionalism and globalization This study challenges perceptions of irrevocable decline

and suggests a more balanced assessment of Britain's strengths and weaknesses. As high politics including security concerns diminish in importance, economic and commercial concerns increasingly seem to dictate foreign policy. On the assumption that what the population seeks is a combination of physical security, prosperity, and what could be termed moral self-approbation, this study suggests ways in which Britain could capitalize on its influence and assets to promote its interests. A framework is provided for thinking about British foreign policy at a time when globalization, multinational companies, NGOs, the European Union, and other factors increasingly constrain the freedom of government and the traditional role of the foreign office.

After the Euro Colin Crouch, 2000-03-09 Monetary arrangements of nation states are imbedded in a range of political, cultural, economic, and historical factors. Will mechanisms of these kinds eventually develop at the European level? Can national structures adapt to meet the challenge?
