Baudelaire's Media Aesthetics Marit Grønne, 2016-10-20 Baudelaire s Media Aesthetics situates Charles Baudelaire in the midst of 19th century media culture It offers a thorough study of the role of newspapers photography and precinematic devices in Baudelaire s writings while also discussing the cultural history of these media generally The book reveals that Baudelaire was not merely inspired by the new media but that he played with them using them as frames of perception and ways of experiencing the world His writings demonstrate how different media respond to one another and how the conventions of one medium can be paraphrased in another medium Accordingly Baudelaire s Media Aesthetics argues that Baudelaire should be seen merely as an advocate of pure poetry but as a poet in a media saturated environment It shows that mediation montage and movement are features that are central to Baudelaire s aesthetics and that his modernist aesthetics can be conceived of to a large
