Brolin,2000 Embellishment is a basic human need Why was it banished from modern architecture      *Architecture, Aesthetics, and the Predicaments of Theory* Amir H Ameri,2021-12-23 Architecture Aesthetics and the Predicaments of Theory offers a critical analysis of the methodological constants and shared critical strategies in the history of theoretical discourse on Western architecture Central to these constants is the persistent role of aesthetics as a critical tool for the delimitation of architecture This book analyzes the unceasing critical role aesthetics is given to play in the discourse of architecture The book offers a close and critical reading of three seminal texts from three different periods in the history of theoretical discourse on Western architecture the Renaissance the Enlightenment and 19th century Romanticism The first text is Leone Battista Alberti s Ten Books on Architecture of 1452 the next Marc Antoine Laugier s An Essay on Architecture of 1753 and last John Ruskin s The Seven Lamps of Architecture of 1849 Additional influential texts from among others the 20th and 21st centuries are engaged with along the way to locate and contextualize the arguments within the broader discursive tradition of Western architecture The book will interest scholars and students of architecture architectural history and theory as well as scholars and students of cultural studies aesthetic philosophy art history literary criticism and related disciplines      The Architecture of the Illusive Distance Amir H. Ameri,2016-03-03 Focusing on three secular institutional building types libraries museums and cinemas this book explores the intricate interplay between culture and architecture It explores the cultural imperatives which have seen to the formation of these institutions the development of their architecture and their transformation over time The relationship between culture and architecture is often perceived as a monologic relationship Architecture is seen to embody represent and or reflect the values the beliefs and the aesthetic ideals of a culture Ameri argues that this is at best a partial and restrictive view and that if architecture is a cultural statement it is a performative one It does not merely represent culture but constructs reifies and imposes culture as the unalterable shape of reality Whereas the concept and the study of cultural performatives have had an important critical impact on the humanities architecture as a cultural performative has not received the necessary scholarly attention and in part this book aims to fill this gap Whereas building type studies have been largely restricted to elucidating how best to design building types based on historic and contemporary precedents studies in the humanities that analytically and critically engage the secular institutions and their history as cultural performatives typically cast a blind or perfunctory glance at the performative complicity of their architecture This book aims to address the omissions in both these approaches The library the museum and the movie theater have been selected for close critical study because this book argues each has been instituted to house domesticate and restrain a

specific form of representation The aim has been to protect and promulgate the metaphysics of presence as Jacques Derrida expounds the concept This book proposes that it is against the dangers of unconstrained cohabitation of reality and representation that the library the m

**Women Artists and the Decorative Arts 1880-1935** Bridget Elliott, Janice Helland, 2019-01-15 This title was first published in 2002 To date studies explaining decorative practice in the early modernist period have largely overlooked the work of women artists For the most part studies have focused on the denigration of decorative work by leading male artists frequently dismissed as fashionably feminine With few exceptions women have been cast as consumers rather than producers The first book to examine the decorative strategies of late nineteenth and early twentieth century women artists *Women Artists and the Decorative Arts* concentrates in particular on women artists who turned to fashion interior design and artisanal production as ways of critically engaging various aspects of modernity Women artists and designers played a vital role in developing a broad spectrum of modernist forms In these essays new light is shed on the practice of such well known women artists as May Morris Clarice Cliff Natacha Rambova Eileen Gray and Florine Stettheimer whose decorative practices are linked with a number of fascinating but lesser known figures such as Phoebe Traquair Mary Watts Gluck and Laura Nagy

*The Theory of Architecture* Paul-Alan Johnson, 1994-04-18 *The Theory of Architecture* Concepts Themes Practices Paul Alan Johnson Although it has long been thought that theory directs architectural practice no one has explained precisely how the connection between theory and practice is supposed to work This guide asserts that architectural theory does not direct practice but is itself a form of reflective practice Paul Alan Johnson cuts through the jargon and mystery of architectural theory to clarify how it relates to actual applications in the field He also reveals the connections between new and old ideas to enhance the reader's powers of critical evaluation Nearly 100 major concepts themes and practices of architecture as well as the rhetoric of architects and designers are presented in an easily accessible format Throughout Johnson attempts to reduce each architectural notion into its essential concept By doing so he makes theory accessible for everyday professional discussion Topics are arranged under ten headings identification definition power attitudes ethics order authority governance relationship and expression Areas covered under these headings include Utopic thought in theories of architecture Advocacy and citizen participation in architecture The basis of architectural quality and excellence The roles of the architect as artist poet scientist and technologist Ethical obligations of architecture Rationales for models and methods of design How authority is determined in architecture How architects structure their concepts Conventions of communication within the architectural profession Each section begins by showing the etymology of key terms of the topic discussed along with a summary history of the topic's use in architecture Discussions probe the conceptual and philosophical difficulties of different theories as well as their potential and limitations in past and

present usage Among the provocative issues discussed in terms of their relationship to architecture are chaos theory feminism service to the community and the use of metaphor Johnson points out with stunning clarity the intentions as well as the contradictions and inconsistencies of all notions and concepts All architects and designers as well as students and teachers in these disciplines will gain many insights about architectural thought in this groundbreaking text

**Reading in Detail** Naomi Schor, 2013-10-18 Who cares about details As Naomi Schor explains in her highly influential book we do but it has not always been so The interest in detail in art in literature and as an aesthetic category is the product of the decline of classicism and the rise of realism But the story of the detail is as political as it is aesthetic Secularization the disciplining of society the rise of consumerism the invention of the quotidian have all brought detail to the fore In this classic work of aesthetic and feminist theory now available in a new paperback edition Schor provides ways of thinking about details and ornament in literature art and architecture and uncovering the unspoken but powerful ideologies that attached gender to details Wide ranging and richly argued Reading in Detail presents ideas about reading and viewing that will enhance the study of literature and the arts

**The Victorian Parlour** Thad Logan, 2001-07-05 The parlour was the centre of the Victorian home and as Thad Logan shows the place where contemporary conflicts about domesticity and gender relations were frequently played out In The Victorian Parlour A Cultural Study Logan

uses an interdisciplinary approach that combines the perspectives of art history social history and literary theory to describe and analyse the parlour as a cultural artefact She offers a detailed investigation of specific objects in the parlour and argues that these things articulated social meaning and could present symbolic resolutions to disturbances in the social field The book concludes with a discussion of how representations of the parlour in literature and art reveal the pleasures and anxieties associated with Victorian domestic life

**C.R. Mackintosh** David Brett,1992 Between 1896 and 1906 Charles Rennie Mackintosh 1868 1928 produced a series of buildings and interiors in and around Glasgow of such startling invention that he immediately established himself as one of the truly great figures in early twentieth century architecture and design David Brett argues that Mackintosh s originality was grounded in a highly subjective poetics of workmanship in which the structure features interiors and furnishings of each individual building became subject to a unifying system of forms metaphors and unconscious associations The system Mackintosh evolved which began with his early drawing shaped by the Victorian tradition of art botany allowed for the formulation of an almost infinite series of ensembles After focusing on the various decorative details and interior spaces of Mackintosh s buildings the author reaches to the heart of Mackintosh s poetic system the diffused eroticism of the sleek feminine and intensely private white interiors A notable feature of this persuasive reappraisal of Mackintosh s work is the wealth of photographs by the author showing rarely featured details of buildings interiors and furnishings

**Ornament** T. L. J. Howard,Michael Snodin,Maurice Howard,1996-01-01 In a wide ranging and richly illustrated book the authors begin by tracing the ways ornament has been used over the last five centuries the rules of decorum and etiquette associated with it

and the social moral and spiritual values it has represented They examine how architecture set the agenda for ornament in the Renaissance and how printed images carried a common vocabulary of ornament throughout the Western world They survey the personal side of ornament both in dress and in the domestic interior a private expression of the self and a public statement of social and cultural status They look at ornament in the public domain from the lavish decoration and symbolism of a town pageant to the logos of today s corporate industry and show how the ever evolving role of ornament is to invent and embody the collective spirit of communities at work and at leisure They conclude by discussing how the Western tradition of ornament has responded to and absorbed exotic African and Asian motifs Moresque motifs of the Near East and such familiar designs as the Paisley and Willow patterns
