Critique of Fantasy, Vol. 1 Laurence A. Rickels, 2020 Critique of Fantasy Vol 1 Between a Crypt and a Date Mark addresses both the style or genre of fantasy and the mental faculty long the hot property of philosophical ethics Freud passed it along in his 1907 essay on the poetics of daydreaming when he addressed omnipotent wish fantasy as the source and resource of the aspirations and resolutions of art which however the artwork can never look back at or acknowledge By grounding his genre in the one fantasy that is true the Gospel J R R Tolkien obviated and made obvious the ethical mandate of fantasy's restraining order With George Lucas's Star Wars we entered the borderlands of the fantasy and science fiction genres a zone resulting from and staggering a contest which Tolkien inaugurated in the 1930s The history of this contested borderland marks changes that arose in expectation of what the new media held in store changes realized but outside the box of what had been projected upon the arrival of the unanticipated digital relation which at last seemed to award the fantasy genre the contest prize Freud's notion of the Zeitmarke datemark the indelible impress of the present moment that triggered the daydream that denies it already introduced the import of fantasy's historicization Science fiction won a second prize that keeps it in the running No longer bound to projecting the future the former calling which in light of digitization it flunked science fiction becomes allegorical and reading in the ruins of its failed predictions illuminates all the date marks and crypts hiding out in the borderlands it traverses with fantasy To motivate the import of an evolving science fiction genre Critique of Fantasy makes Gotthard G.
