

Floating City

Derrick Howard

Floating City:

Death in the Floating City Tasha Alexander, 2012-10-16 The Huffington Post calls Tears of Pearl author Tasha Alexander one to watch and read and her new Lady Emily mystery set in Venice proves it Years ago Emily's childhood nemesis Emma Callum scandalized polite society when she eloped to Venice with an Italian count But now her father in law lies murdered and her husband has vanished There's no one Emma can turn to for help but Emily who leaves at once with her husband the dashing Colin Hargreaves for Venice There her investigations take her from opulent palazzi to slums libraries and bordellos Emily soon realizes that to solve the present day crime she must first unravel a centuries old puzzle But the past does not give up its secrets easily especially when these revelations might threaten the interests of some very powerful people

The Silent War John Pina Craven, 2002-06-02 The Cold War was the first major conflict between superpowers in which victory and defeat were unambiguously determined without the firing of a shot Without the shield of a strong silent deterrent or the intellectual sword of espionage beneath the sea that war could not have been won John P Craven was a key figure in the Cold War beneath the sea As chief scientist of the Navy's Special Projects Office which supervised the Polaris missile system then later as head of the Deep Submergence Systems Project DSSP and the Deep Submergence Rescue Vehicle program DSRV both of which engaged in a variety of clandestine undersea projects he was intimately involved with planning and executing America's submarine based nuclear deterrence and submarine based espionage activities during the height of the Cold War Craven was considered so important by the Soviets that they assigned a full time KGB agent to spy on him Some of Craven's highly classified activities have been mentioned in such books as Blind Man's Bluff but now he gives us his own insights into the deadly cat and mouse game that U S and Soviet forces played deep in the world's oceans Craven tells riveting stories about the most treacherous years of the Cold War In 1956 Nautilus the world's first nuclear powered submarine and the backbone of the Polaris ballistic missile system was only days or even hours from sinking due to structural damage of unknown origin Craven led a team of experts to diagnose the structural flaw that could have sent the sub to the bottom of the ocean taking the Navy's missile program with it Craven offers insight into the rivalry between the advocates of deterrence with whom he sided and those military men and scientists such as Edward Teller who believed that the United States had to prepare to fight and win a nuclear conflict with the Soviet Union He describes the argument that raged in the Navy over the reasons for the tragic loss of the submarine Thresher and tells the astonishing story of the hunt for the rogue Soviet sub that became the model for The Hunt for Red October including the amazing discovery the Navy made when it eventually found the sunken sub Craven takes readers inside the highly secret DSSP and DSRV programs both of which offered crucial cover for sophisticated intelligence operations Both programs performed important salvage operations in addition to their secret espionage activities notably the recovery of a nuclear bomb off Palomares Spain He describes how the Navy's success at deep sea recovery operations led to the takeover of the entire program by the CIA during the Nixon

administration A compelling tale of intrigue both within our own government and between the U S and Soviet navies The Silent War is an enthralling insider s account of how the submarine service kept the peace during the dangerous days of the Cold War

Carbon Neutral City Jun Wang,2025-08-22 This book introduces the ecological low carbon and sustainable concept of ideal cities from different views With beliefs and practices of scholars in the past in pursuit of ideal cities it is written with historical events in the development of low carbon cities In this way activities about carbon peaking and carbon neutrality happening worldwide at present can be shown and efforts variety countries have paid off can be exhibited Besides as for the centralized and the distributed space structure in urban evolution the book discusses their trends and comes up with an ideal model the distributed city to realize carbon neutrality based on the distributed structure Therefore with a practical example in planning the feasibility of the distributed city is analyzed in several fields including space energy traffic water waste disposal etc The book can be used as materials for professionals in city planning and construction low carbon development and other fields as well as a way for ordinary people to learn about the complex city

Extraordinary Islands Alastair Bonnett,2025-10-14 Discover the world s most remote and mysterious islands in this beautifully designed book Spanning continents and cultures it explores exotic hard to reach locations with an international appeal Divided into four sections Strange Scary Remote and Naturally Odd it unveils the haunting beauty and enigmatic allure of these isolated and extraordinary places

Viable Utopian Ideas Art Shostak,2015-06-11 Utopias whether philosophical literary or actual experiments are attempts to solve all social problems In the wake of the attack on the World Trade Center unfolding corporate scandals and other devastating shocks it is natural to search for practical lessons in utopian literature In this collection noted sociologists renew the call to develop an altruistic social order They address a wide variety of topics as they look for viable utopian ideas that can be applied to today s society Written in an engaging jargon free style and directed to introductory sociology students as well as anyone concerned with social problems the book provides both visionary ideals and insights for pragmatic decision making as we venture into an uncertain future

Through the portal: The rise of the North King Wesley Wang,2024-11-30 I just wanted a quiet life But then I went through a portal to another world Thrown into a world full of magic flying dragons and dangerous creatures the protagonist finds himself in a land inhabited by powerful gods and mysterious races As an ordinary citizen who does not even know the language survival seems an impossible task But with the awakening of an unusual ability the power to summon allies from the old world everything changes With each new ally the protagonist rises in the social ranks turning the struggle to survive into a journey to the top However the kingdom is threatened by an invasion of monsters and the fate of the North depends on him Do I really have to save this world I just wanted to go home From ordinary citizen to King of the North the fate of an entire land is in his hands But when two worlds collide who knows what the future will bring

Omnis: Last Man of Earth Derrick Howard,2023-12-14 On Intergalactic Independence Day Earth 2050 Sledge a reluctant blind hero is dragged kicking and

screaming into a gallant struggle for survival just like you With only a walking stick and grit as aid he finds himself in a dystopic universe pitted against celestial beings exploiting the confluence of apex AI cancer cultures perpetual acts of genocide and humankind s irrepressible self indulgence to exterminate humans for past misdeeds and future crimes Like you fate demands Sledge concede if freedom is best achieved by accepting the destiny he shares with all other humans or by continuing to evade it with precious little in hand This epic action packed Afrofuturistic sci fi novel Omnis Last Man of Earth sets forth Sledge s journey as he tangles with celestials transhumans aliens drones and sentients while beings throughout the universe gather around holoprojectors to wager on Earth s destruction Will you be a spectator in your self destruction or a participant in your survival Read on The clock is ticking Tick tick tick What are you going to do **Water and Urban**

Development Paradigms Jan Feyen,Kelly Shannon,Matthew Neville,2008-09-03 Communication across and integration of disciplines in the urban water sector seems today more imperative than ever before Water is a strategic and shrinking resource It is probably the world s most valuable resource and clean water has even been touted as the next oil Control of water from access to management has always been a *The Literature and Politics of the Environment* John Parham,2023 Essays exploring interrelated strands of material ecologies past and present British politics and the act of writing through a rich variety of case studies Much as the complexities of climate change and the Anthropocene have queried the limits and exclusions of literary representation so too have the challenges recently presented by climate activism and intersectional environmentalism animal rights and even the power of material forms such as oil plastic and heavy metals Social and protest movements have revived the question of whether there can be such a thing as an activist ecocriticism can such an approach only concern itself with consciousness or might it politicise literary criticism in a new way Attempting to respond this volume coalesces around three interrelated strands material ecologies past and present British politics and the act of writing itself Contributors consider the ways in which literary form has foregrounded the complexities of both matter in essays on water sugar and land and political economics from empire and nationalism to environmental justice movements and local and regional communities The volume asks how life writing nature writing creative nonfiction and autobiography although genres entrenched in capitalist political realities can also confront these by reinserting personal experience Can we bring a more sustainable planet into being by focusing on those literary forms which have the ability to imagine the conditions and systems needed to do so **Fiscal Policy and the Energy Crisis** United States. Congress. Senate. Committee on Finance.

Subcommittee on Energy,United States. Congress. Senate. Committee on Finance,1973 Solar Sea Thermal Energy United States. Congress. House. Committee on Science and Astronautics. Subcommittee on Energy,1974 *Fiscal Policy and the Energy Crisis: Appendixes to Part 1* United States. Congress. Senate. Committee on Finance. Subcommittee on Energy,1973

Computational Collective Intelligence Ngoc Thanh Nguyen,Elias Pimenidis,Zaheer Khan,Bogdan Trawiński,2018-08-27 This two volume set LNAI 11055 and LNAI 11056 constitutes the refereed proceedings of the 10th

International Conference on Collective Intelligence ICCCI 2018 held in Bristol UK in September 2018 The 98 full papers presented were carefully reviewed and selected from 240 submissions The conference focuses on knowledge engineering and semantic web social network analysis recommendation methods and recommender systems agents and multi agent systems text processing and information retrieval data mining methods and applications decision support and control systems sensor networks and internet of things as well as computer vision techniques *Selected Water Resources Abstracts* ,1975-03

Escaping Nature Orrin H. Pilkey, Charles O. Pilkey, Linda P. Pilkey-Jarvis, Norma J. Longo, Keith C. Pilkey, Fred B. Dodson, Hannah L. Hayes, 2024-01-26 Industrial and agricultural greenhouse gas emissions are rapidly warming Earth's climate unleashing rising seas ocean acidification melting permafrost powerful storms wildfires floods deadly heat waves droughts tsunamis food shortages and armed conflict over shrinking water supplies while reducing nutritional levels in crops Billions of people will become climate refugees Hotter temperatures will allow tropical diseases to spread into temperate regions Higher levels of CO2 allergens dust and other particulate matter will impair our physical and mental health and even reduce our cognitive abilities Climate change disproportionately affects the world's poor It also harms Nature and could ultimately trigger a sixth mass extinction In *Escaping Nature* Orrin H Pilkey and his coauthors offer concrete suggestions for how to respond to the threats posed by global climate change They argue that while we wait for the world's governments to get serious about mitigating climate change we can adapt to a hotter world through technological innovations behavioral changes nature based solutions political changes and education *Maritime Technology and Engineering* Carlos Guedes Soares, T.A. Santos, 2014-09-30 Maritime Technology and Engineering includes the papers presented at the 2nd International Conference on Maritime Technology and Engineering MARTECH 2014 Lisbon Portugal 15-17 October 2014 The contributions reflect the internationalization of the maritime sector and cover a wide range of topics Ports Maritime transportation Inland navigat **Book catalog of the Library and Information Services Division** Environmental Science

Information Center. Library and Information Services Division, 1977 Book Catalog of the Library and Information Services Division: Author-title-series indexes Environmental Science Information Center. Library and Information Services

Division, 1977 *Starfall Legacy 13* Wesley Wang, 2024-07-17 **Biomimetic Architecture and Its Role in Developing Sustainable, Regenerative, and Livable Cities** Mohsen Aboulnaga, Samaa E. Helmy, 2022-09-01 This book focuses on understanding biomimetic architecture and its role as a sustainable design tool It presents the role of biomimicry in mitigation and adaptation to climate change and examines how biomimetic architecture can provide healthy solutions to limit the spread of COVID-19 in buildings and cities Coverage includes global examples of biomimetic approaches and buildings an evaluation of the performance of biomimicry applications in architecture to illustrate best practices and an exploration of how nature can offer inspiration in building design to conserve resources and save energy use as well as curb carbon emissions a reaffirmed goal of COP 26 and an outcome of Glasgow Climate Pact Finally the book presents guidelines to

enhance urban areas and healthier spaces in buildings to meet COVID 19 social distance regulations and beyond Examines global applications of biomimicry in architecture Highlights the importance of biomimicry in driving livability in cities and buildings Explores the role of biomimetic architecture in mitigating climate change The line of argument developed is highly relevant to the present in addition to being original and pertinent to research on urban regeneration especially in regard to the exploration of the use of biomimicry architecture in response to changing urban demands Alessandra Battisti Ph D Professor of Architecture University of Rome La Sapienza

Immerse yourself in heartwarming tales of love and emotion with Explore Love with is touching creation, **Floating City** .
