*Blackwood's Magazine* ,1891      *From the Mysteries* Hermann Beckh,2020-06-03 In the early part of the last century Professor Hermann Beckh began a search to discover the truth about the Mystery wisdom of antiquity As a recognized authority on Buddhist texts he knew that complete knowledge of such Mysteries was not to be found within the limitations of waking consciousness sense perception and logic Beckh was already aware that Gautama Buddha had indicated the stages of higher knowledge Furthermore his studies of Rudolf Steiner s anthroposophical teachings revealed that such knowledge could be experienced directly given disciplined meditation Clairvoyant cognition included the conscious penetration of sleep consciousness the dream state and an experience of pre natal consciousness Both the Mysteries and Rudolf Steiner s major books he concluded were founded on the same perceptions Beckh a worldwide expert on Tibetan Sanskrit Pali and Avestan texts quickly became disenchanted with Madame Blavatsky s Theosophy as it displayed little precise academic knowledge of primary records At the same time university departments showed scant trace of understanding the texts they analysed through philology and sociology Thus based on comprehensive studies and personal experience he resolved to present his own perceptions and vision to the public The results are to be found in this invaluable book bringing together for the first time in English three groundbreaking publications Our Origin in the Light Genesis 1 9 1924 Zarathustra 1927 and From the World of the Mysteries 1927 as well as five of Beckh s articles from contemporary periodicals      *Passions and Deceptions* Sabine Hake,2020-12-08 A collaborator with Warner Brothers and Paramount in the early days of sound film the German film director Ernst Lubitsch 1892 1947 is famous for his sense of ironic detachment and for the eroticism he infused into such comedies as So This Is Paris and Trouble in Paradise In a general introduction to his silent and early sound films 1914 1932 and in close readings of his comedies Sabine Hake focuses on the visual strategies Lubitsch used to convey irony and analyzes his contribution to the rise of classical narrative cinema Exploring Lubitsch s depiction of femininity and the

influence of his early German films on his entire career she argues that his comedies represent an important outlet for dealing with sexual and cultural differences The readings cover *The Oyster Princess* *The Doll* *The Mountain Cat* *Passion* *Deception* *So This Is Paris* *Monte Carlo* and *Trouble in Paradise* which are interpreted as part of an underlying process of negotiation between different modes of representation narration and spectatorship a process that comprises the conditions of production in two different national cinemas and the ongoing changes in film technology Drawing attention to Lubitsch's previously neglected German films this book presents the years until 1922 as the formative period in his career **Notes on**

floodplains which levees cannot prevent Therefore it is vital for spatial planning to provide space for water retention in these areas Land use planners water management agencies landowners and policymakers all agree on this challenge but attempts to make the space for rivers to provide retention are generally not very successful Adopting an innovative interdisciplinary approach this book examines how society can manage the use of the floodplains along rivers in the face of extreme floods focusing in particular on the relation between social arrangements and the elemental forces of floods The book firstly analyses why contemporary floodplain management is so often clumsy and ineffective by looking at various real life situations

in Germany using Cultural Theory to provide a much needed but previously neglected social perspective These analyses show a pattern of activity resulting from different rationalities which dominate the floodplains in different phases During extreme floods it is rational to manage floodplains as dangerous areas sandbags and disaster management dominate the scene After some time the rationality of control takes over the floodplain management policymakers discuss flood risk and water managers build levees When public attention diminishes floodplains become inconspicuous until more and more stakeholders regard floodplains as profitable land The current system of planning law and property rights even encourages stakeholders to act out their plural rationalities A permanent dynamic imbalance of different rationalities leads to a robust social construction of the floodplains which results in viable but clumsy floodplains In the course of time however the patterns of activity in the floodplains lead to an increase in intensity and frequency of extreme floods and to more vulnerable potential damages in the floodplains Risk increases Coping with this situation needs another kind of floodplain management This book proposes an innovative concept Large Areas for Temporary Emergency Retention LATER in Clumsy Floodplains as an alternative to levee based flood protection The concept aims at reducing damage by extreme floods in a catchment area by inundating less valuable areas to protect places that are more valuable It finally examines how this LATER concept might be implemented in areas where there is currently a clumsy style of floodplain management what interventions are required and how these might come about effectively Again using Cultural Theory the book puts forward a valuable land policy solution which aims at implementing LATER in clumsy floodplains and which develops an obligatory insurance against natural hazards as a responsive land policy for LATER The book represents the author s PhD research which he conducted as research assistant at the department for Land Policy Land Management and Municipal Geoinformation at the School of Spatial Planning TU Dortmund University Germany Records and Briefs of the United States Supreme Court ,1832
