**Flora of Okinawa and the Southern Ryukyu Islands** Egbert Hamilton Walker, 1976 Flora of Okinawa and the Southern Ryukyu Islands with the Assistance and Collaboration of Many Okinawan, Japanese, Chinese, and Western Botanists, 1976 **Guide to Standard Floras of the World** David G. Frodin, 2001-06-14 This 2001 book provides a selective annotated bibliography of the principal floras and related works of inventory for vascular plants. The second edition was completely updated and expanded to take into account the substantial literature of the late twentieth century and features a more fully developed review of the history of floristic documentation. The works covered are principally specialist publications such as floras, checklists, distribution atlases, systematic iconographies and enumerations or catalogues, although a relatively few more popularly oriented books are also included. The Guide is organised in ten geographical divisions with these successively divided into regions and units, each of which is prefaced with a historical review of floristic studies. In addition to the bibliography, the book includes general chapters on botanical bibliography, the history of floras and general principles and current trends, plus an appendix on bibliographic searching, a lexicon of serial abbreviations and author and geographical indexes.

**Nature, Ritual, and Society in Japan's Ryukyu Islands** Arne Røkkum, 2006-04-18 Despite their small area, the southern islands of Japan can be seen as stepping stones towards a more nuanced view of cultural osmosis between Japan and the outside world. This book presents an ethnographic portrayal of the people of the Southern Ryukyu Islands and their world. In particular, it explores the mind of the islanders, their relationship with the natural world, their social relationships and the rituals which represent and give expression to these relationships. Based on extensive original research, including participant observation, the book allows the authentic voices of the Ryukyu Island worlds to speak for themselves as well as setting the work in the wider context of anthropology, Japanese Studies and Pacific Island studies.

**Vegetation Science in Forestry** Elgene E. O. Box, R.K. Peet, T. Masuzawa, I. Yamada, K. Fujiwara, P.F. Maycock, 1995-01-31 More than a decade has passed since Professor Gisela Jahn completed Volume 12 of the Handbook of Vegetation Science dealing with the application of vegetation science in forestry, mostly European forestry. The volume was well received by the critics with the exception that they wanted a more diversified demonstration of forestry-related vegetation science work and a wider representation of forest types from different continents. The topics covered in this volume 12 1 widen the scope of vegetation science work in forestry over the phytosociological work which was the main focus in the Handbook as perceived by Dr T xen.
