traces the theme in works by William Wordsworth Elizabeth Barrett Browning Robert Browning Walt Whitman George Gissing James Joyce Virginia Woolf and Marcel Proust As well as street cries these writers incorporate ballads folk songs religious and political songs and songs of their own invention into crucial scenes and the singers themselves range from a one legged beggar in Dublin to a famous painter in fifteenth century Florence The book concludes with the beautiful and unlikely song of a knife grinder s wheel Throughout the book Karlin emphasizes the rich complexity of his subject The street singer may be figured as an urban Orpheus enchanting the crowd and possessed of magical powers of healing and redemption but the barbaric din of the modern city is never far away and the poet who identifies with Orpheus may also dread his fate And the fugitive transient nature of song offers writers a challenge to their more structured art Overheard in fragments teasing ungraspable the street song may be captured by a literary work but is never finally tamed

*Victorian Poetry and the Culture of Evaluation* Clara Dawson, 2020-02-27 *Victorian Poetry and the Culture of Evaluation* argues that the dialectic and dynamic relationship between the periodical review and poetry creates a culture of evaluation which shapes Victorian poetic form The mediation of poetry by the periodical review orients poets towards public readership and reception heightening their self consciousness about their audience and generating a poetics of publicness Using methodologies associated with historical poetics and new formalism the book examines the dialogues between poets and periodical reviews from the 1830s to the 1860s It juxtaposes male and female poets and canonical and uncanonical texts Challenging the critical binaries of fame and celebrity the culture of evaluation posits a new way of reading Victorian poetry It illuminates poets engagement with the immediacy and inevitability of writing for the present and for the contemporary media through which poetry was read and disseminated New patterns of reception were created by mass print culture and both poets and reviewers were preoccupied with reaching the newly constituted mass audience The changes to the material forms of poetry e g through the periodical or gift book and the subjection to the commercial imperatives of the literary marketplace encouraged bold experiment with verse The book identifies three poetic strategies for articulating the preoccupation with a mass audience and the demands of mass media voice style and address Chapters on voice style and address explore the development of poetic form in dialogue with periodical reviews

*The Intellectual Struggle for Florence* Arthur Field, 2017-07-21 *The Intellectual Struggle for Florence* is an analysis of the ideology that developed in Florence with the rise of the Medici during the early fifteenth century the period long recognized as the most formative of the early Renaissance Instead of simply describing early Renaissance ideas this volume attempts to relate these ideas to specific social and political conflicts of the fifteenth century and specifically to the development of the Medici regime It first shows how the Medici party came to be viewed as fundamentally different from their opponents the oligarchs then explores the intellectual world of these oligarchs the traditional culture As political conflicts sharpened some humanists Leonardo Bruni and Francesco Filelfo with close ties to oligarchy still attempted to enrich traditional culture with classical learning while others such as Niccol Niccoli

and Poggio Bracciolini rejected tradition outright and created a new ideology for the Medici party What is striking is the extent to which Niccoli and Poggio were able to turn a Latin or classical culture into a popular culture and how the culture of the vernacular remained traditional and oligarchic
