Points of Departure Peter Fenves,2016-11-15 Since the late 1960s when he introduced Theodor Adorno s work on literature and cultural critique to an English speaking public Samuel Weber has stimulated the discovery of new and unexpected links within a broad spectrum of humanistic disciplines including critical theory and psychoanalysis media studies and literary analysis continental philosophy and theater studies The international group of scholars who contribute to Points of Departure demonstrate the persistent fecundity of Weber s work Centered around his essay on the Ghost of Hamlet as reflected in the writings of Walter Benjamin and Carl Schmitt the volume is broadly divided into explorations of the nature of spectrality on the one hand and the dynamics of reading on the other Each of the twelve essays thus takes its point of departure from Weber s singular path between languages cultures and traditions to quote Jacques Derrida whose fictive interview with a passing journalist is published here for the first time **Catalog of Copyright Entries. Library of Congress. Copyright Office,1976 **A Topology of Everyday Constellations** Georges Teyssot,2013-02-22 The threshold as both boundary and bridge investigations of spaces public and private local and global Today spaces no longer represent a bourgeois haven nor are they the sites of a classical harmony between work and leisure private and public the local and the global The house is not merely a home but a position for negotiations with multiple spheres the technological as well as the physical and the psychological In A Topology of Everyday Constellations Georges Teyssot considers the intrusion of the public sphere into private space and the blurring of notions of interior privacy and intimacy in our societies He proposes that we rethink design in terms of a new definition of the practices of everyday life Teyssot considers the door the window the mirror and the screen as thresholds or interstitial spaces that divide the world in two the outside and the inside Thresholds he suggests work both as markers of boundaries and as bridges to the exterior The stark choice between boundary and bridge creates a middle space an in between that holds the possibility of exchanges and encounters If the threshold no longer separates public from private and if we can no longer think of the house as a bastion of privacy Teyssot asks does the body still inhabit the house or does the house evolving into a series of microdevices inhabit the body

Missions of Interdependence Gerhard Stilz,2002 At the beginning of the twenty first century it is necessary to combine into a productive programme the striving for individual emancipation and the social practice of humanism in order to help

the world survive both the ancient pitfalls of particularist terrorism and the levelling tendencies of cultural indifference engendered by the renewed imperialist arrogance of hegemonial global capital In this book thirty five scholars address and negotiate in a spirit of learning and understanding an exemplary variety of intercultural splits and fissures that have opened up in the English speaking world Their methodology can be seen to constitute a seminal field of intellectual signposts They point out ways and means of responsibly assessing colonial predicaments and postcolonial developments in six regions shaped in the past by the British Empire and still associated today through their allegiance to the idea of a Commonwealth of Nations They show how a new ethic of literary self assertion interpretative mediation and critical responsiveness can remove the deeply ingrained prejudices silences and taboos established by discrimination against race class and gender
