Abridged from "The Illustrated Natural History" [of John George Wood]. With Ten Coloured Plates, Etc, 1876 **Free from**

School Rahul Alvares,2005-01-12 It s not every day that a 16 year old writes a book In fact girls and boys of that age are supposed to spend their time studying what other people write It is pre sumed that at that age they do not themselves have anything significant or interesting to say And the education system guarantees just that The best rewards go to those who can parrot set answers to set questions in examination halls Those who try to use their imagination or reply differently are often punished with low grades

The Illustrated Natural History: Birds. 1864 John George Wood,1831 *Natural Selection and Beyond* Charles Hyde Smith,George Beccaloni,2010 Alfred Russel Wallace 1823 1913 was one of the late nineteenth century s most potent intellectual forces His link to Darwin as co discoverer of the principle of natural selection alone would have secured him a place in history but he went on to complete work entitling him to recognition as the father of modern biogeographical studies as a pioneer in the field of astrobiology and as an important contributor to subjects as far ranging as glaciology land reform anthropology and ethnography and epidemiology Beyond this many are coming to regard Wallace as the pre eminent field biologist collector and naturalist of tropical regions Add to that the fact that he was a vocal supporter of spiritualism socialism and the rights of the ordinary person and it quickly becomes apparent that Wallace was a man of extraordinary breadth of attention Yet his work in many of these areas is still not well known and still less recognized is his relevance to current day research almost 100 years after his death This rich collection of writings by more than twenty historians and scientists reviews and reflects on the work that made Wallace a famous man in his own time and a figure of extraordinary influence and continuing interest today
