**What We Did in Bed** Brian Fagan, Nadia Durrani, 2019-09-24 Pulling back the covers on the fascinating yet often forgotten history of the bed If you thought that your bed was only good for sleeping in having sex in or dying in then this book will disabuse you in fact it is so entertaining it will keep you awake long into the night Paul Chrystal author of *In Bed with the Ancient Greeks* and *In Bed with the Romans* Louis XIV ruled France from his bedchamber Winston Churchill governed Britain from his during World War II Travelers routinely used to bed down with complete strangers and whole families shared beds in many preindustrial households Beds were expensive items and often for show Tutankhamun was buried on a golden bed wealthy Greeks were sent to the afterlife on dining beds and deceased middle class Victorians were propped up on a bed in the parlor In this sweeping social history that covers the past seventy thousand years Brian Fagan and Nadia Durrani look at the endlessly varied role of the bed through time This was a place for sex death childbirth storytelling and sociability as well as sleeping But who did what with whom why and how could vary incredibly depending on the time and place It is only in the modern era that the bed has transformed into a private hidden zone and its rich social history has largely been forgotten

**The Nineteenth Century and After**, 1902 **The Language of Flowers** Beverly Seaton, 2012-10-10 The author traces the phenomenon of ascribing sentimental meaning to floral imagery from its beginnings in Napoleonic France through its later transformations in England and America At the heart of the book is a depiction of what the three most important flower books from each of the countries divulge about the period and the respective cultures Seaton shows that the language of flowers was not a single and universally understood correlation of flowers to meanings that men and women used to communicate in matters of love and romance The language differs from book to book country to country To place the language of flowers in social and literary perspective the author examines the nineteenth century uses of flowers in everyday life and in ceremonies and rituals and provides a brief history of floral symbolism She also discusses the sentimental flower book a genre especially intended for female readers Two especially valuable features of the book are its table of correlations of flowers and their meanings from different sourcebooks and its complete bibliography of language of flower titles This book will appeal not only to scholars in Victorian studies and women's studies but also to art historians book collectors museum curators historians of horticulture and anyone interested in nineteenth century popular culture

*The Twentieth Century*, 1902 *Religious Controversies of the Nineteenth Century* A. O. J. Cockshut, 1966-01-01 The relation of the Church to the State and that of science to religion were at the core of the bitter religious controversies raging in Victorian England The purpose of this book is to present as many as possible of the basic texts and in particular those that are comparatively inaccessible necessary to their understanding The volume opens with William Wilberforce's eloquent appeal for Evangelical religion 1797 followed by two selections from the writings of the great precursor of the Oxford Movement Samuel Taylor Coleridge From Newman's Tracts for the Times Mr Cockshut has chosen two 1833 tracts No 1

which distinguishes between the constitutional position of the Church on the one hand and its essential spiritual authority on the other and No XI in which Newman argues that the plain sense of the Bible points to the authority of the Church and sections from the famous Tract XC 1841 Newman's attempt to reconcile the Thirty Nine Articles with Roman doctrines The position of the Broad Church school which was more concerned with the moral and educational influence of Christianity on the nation as a whole than with the drama of individual salvation is suggested in two sermons by Thomas Arnold Subsequent groups of selections deal with three full dress Victorian controversies In 1847 Lord John Russell's nomination of Dr Hampden as bishop of Hereford was challenged on the ground that the Church was entitled to be consulted before it had bishops imposed on it by the Crown and raised the question Was the Church of England a part of Christ's church or was it a department of State Fifteen years later the Colenso case the trial for heresy of the bishop of Natal raised an even more intractable problem What was the relation of Church and State overseas In the meanwhile the publication of Essays and Reviews 1860 and the prosecution for heresy of two of the contributors saw a lay court deciding doctrinal questions In the concluding selections the impact of Darwin's *Origins of Species* on contemporaneous religious thought is reflected in A P Stanley's sermon at the funeral of the geologist Sir Charles Lyell whose work anticipated in part Darwin's *Descent of Man* and in Frederick Temple's 1884 lecture *The Relations between Religion and Science* A general introduction by the editor puts the documents in context and each selection is preceded by a brief discussion
