Flesh And Stone The Body And The City In Western Civilization:

Flesh and Stone: The Body and the City in Western Civilization Richard Sennett, 1996-03-17 This vivid history of the city in Western civilization tells the story of urban life through bodily experience. *Flesh and Stone* is the story of the deepest parts of life: how women and men moved in public and private spaces, what they saw and heard, the smells that assailed them, where they ate, how they dressed, the mores of bathing and of making love, all in the architecture of stone and space from ancient Athens to modern New York. Early in *Flesh and Stone*, Richard Sennett probes the ways in which the ancient Athenians experienced nakedness and the relation of nakedness to the shape of the ancient city, its troubled politics and the inequalities between men and women. The story then moves to Rome in the time of the Emperor Hadrian, exploring Roman beliefs in the geometrical perfection of the body. The second part of the book examines how Christian beliefs about the body related to the Christian city, the Venetian ghetto, cloisters and markets in Paris. The final part of *Flesh and Stone* deals with what happened to urban space as modern scientific understanding of the body cut free from pagan and Christian beliefs. *Flesh and Stone* makes sense of our constantly evolving urban living spaces, helping us to build a common home for the increased diversity of bodies that make up the modern city.

Flesh and Stone: The Body and the City in Western Civilization Richard Sennett, 1996-03-17 This completely unique history tells the story of urban life over 2 500 years through the bodily experience of men and women: what sights, smells and noises they took in, how they dressed, how they made love, when they bathed and more, in great cities from ancient Athens to modern New York.

Terrains of Consciousness Zeno Ackermann, Isabel Karremann, Simi Malhotra, Nishat Zaidi, 2021-10-01 *TERRAINS OF CONSCIOUSNESS* emerges from an Indian German Swiss research collaboration. The book makes a case for a phenomenology of globalization that pays attention to locally situated socioeconomic terrains, everyday practices and cultures of knowledge. This is exemplified in relation to three topics: the tension between terrain and territory in Defoe's *Robinson Crusoe* as a pioneering work of the globalist mentality; chapter 1: the relationship between established conceptions of feminism and the concrete struggles of women in India since the 19th century; chapter 2: the exploration of urban space and urban life in writings on India's capital from Ahmed Ali to Arundhati Roy; chapter 3: **The Palgrave Handbook of Literature and the City** Jeremy Tambling, 2017-02-17 This book is about the impact of literature upon cities world wide and cities upon literature. It examines why the city matters so much to contemporary critical theory and why it has inspired so many forms of writing which have attempted to deal with its challenges: to think about it and to represent it. Gathering together 40 contributors who look at different modes of writing and film making in throughout the world, this handbook asks how the modern city has engendered so much theoretical consideration and looks at cities and their literature from China to Peru, from New York to Paris, from London to Kinshasa. It looks at some of the ways in which modern cities, whether capitals, shanty towns, industrial or rust belt, have forced themselves on people's ways of thinking and writing.

Cities as Multiple Landscapes Christina

Antenhofer, Günter Bischof, Robert L. Dupont, Ulrich Leitner, 2016-10-13 Cities are composed of a combination of urban and rural spaces buildings and boundaries and human bodies engaged in political social and cultural discourses Together these combine to create what the contributors to this volume call multiple landscapes Developing a new theoretical conceptualization of cities this book unites American and European approaches to comparative urban studies by investigating the concept of multiple landscapes in two sister cities New Orleans and Innsbruck As the essays reveal both New Orleans and Innsbruck have long been centers of multicultural exchange have strong senses of historical heritage and profit from the spectacular geographies in which they are situated Geography in particular links both cities to environmental technological and security challenges that must be considered in connection with aesthetic cultural and ecological debates Exploring the many connections between New Orleans and Innsbruck the interdisciplinary essays in this book will change the way we think about cities both local and abroad Performance, Space, Utopia S. Jestrovic, 2012-11-13 Over 20 years after the war in Yugoslavia this book looks back at its two most iconic cities and the phenomenon of exile emerging as a consequence of living in them in the 1990s It uses examples ranging from street interventions to theatre performances to explore the making of urban counter sites through theatricality and utopian performatives On the Move Timothy Cresswell, 2012-11-12 On the Move presents a rich history of one of the key concepts of modern life mobility Increasing mobility has been a constant throughout the modern era evident in mass car ownership plane travel and the rise of the Internet Typically people have equated increasing mobility with increasing freedom However as Cresswell shows while mobility has certainly increased in modern times attempts to control and restrict mobility are just as characteristic of modernity Through a series of fascinating historical episodes Cresswell shows how mobility and its regulation have been central to the experience of modernity **The Sociology of the Body** Kate Cregan, 2006-03-31 Through a provocative analysis this book contextualizes explicates and critically analyses the work of those key theorists and texts that have been most influential in refocusing our gaze on human embodiment Upon this foundation the author builds her own distinctive theoretical framework towards the analysis of embodiment This is a valuable addition to the field of body studies Chris Shilling University of Kent Over the last 20 years the social sciences have witnessed a remarkable inter disciplinary surge of interest in the body The latter is now recognized as a core concept and is the subject of intensive study at undergraduate and postgraduate levels But how can we map this work What are the contributions and differences of the various approaches This lucid and authoritative text Provides a critical evaluation of the work of Elias Aries Foucault Bourdieu Mary Douglas Kristeva Butler Haraway and Bordo Guides the reader through the inter disciplinary influence of these ideas Gives a clear and compelling analysis of the significance of the turn towards the body Explains the complex way in which embodiment is formed across different social formations Clearly organized and powerfully expressed the book provides the best available guide to the turn to the body in the social sciences Writing the New Berlin Katharina Gerstenberger, 2008 *The Body* Tiffany Atkinson, 2005-09-11 What do we mean when

we talk about the body This Reader challenges the assumption that it can be invoked as a neutral or indeed natural point of reference in critical discussion or cultural practice The essays collected here foreground the historical construction of the body throughout a range of discourses from the modern to the postmodern and seek to present it not as a biological given but as a contestable signifier in the articulation of identities Key Concepts in Body and Society Kate Cregan, 2012-08-16 This is a very useful book outlining the key concepts of the body in society It is easy to read and provides useful examples making it ideal for students across a range of social science disciplines Dr Sharron Hinchliff Sheffield University Cregan has achieved something distinct an account of the sociology of the body which incorporates both theory and empirical studies which demonstrates excellent coverage of an ever expanding field and which is written in an accessible style An intelligent treatment and account of the sociology of the body which I look forward to incorporating into my teaching Dr Rob Meadows University of Surrey This book is a great idea It provides a thorough accessible and interesting introduction to the most important concepts in the sociology of the body Students new to this area will find it invaluable Professor Deborah Lupton University of Sydney This book provides a clear focused road map to the study of the body in society It defines explains and applies core topics relating to the human body demonstrating how we approach it as a social phenomenon Each concept Includes an easy to understand definition Provides real world examples Gives suggestions for further reading Is carefully cross referenced to other related concepts Written to meet the needs of the modern student this book offers the basic materials tools and guidance needed study and write about the body *The Cut and the Building of Psychoanalysis, Volume I* Carlo Bonomi, 2015-02-11 This volume presents a fresh perspective and new narrative of the origins of psychoanalysis taking into account social cultural and contemporary relational views Exploring Freud's unconscious communication and identification with his patients Emma Eckstein in particular the book sheds new light on the logic which informed a number of events central to Freud's self analysis and the theories he formulated to found and establish psychoanalysis Divided into three parts chapters trace how Freud's oscillations between the reality of trauma and the creative power of fantasies were a direct result of his encounter with and treatment of Emma Part 1 presents a historical reconstruction of the practice of castration in the treatment of hysteric women between 1878 and 1895 Part 2 examines the theories and practice produced by Freud between 1895 and 1896 and Part 3 explores and reconstructs Freud's self analysis 1896 1899 The Cut and the Building of Psychoanalysis argues that Freud's unconscious communication with Emma provided him with a crucial framework and path for his self analysis It will appeal to psychoanalysts psychotherapists and psychologists as well as historians of medicine science social scientists and scholars interested in the history of western thought and the mind in general **Conscious Dwelling** Anna Anzani, 2022-04-12 Through a transdisciplinary perspective this book examines the complex urban dimension in front of increasing density soil consumption abandoned places and the recent pandemic which proved megacities particularly inadequate to provide healthy psychophysical conditions Assuming bodily and emotional

comfort as a reference horizon it tends to inspire the design research overcoming a paradoxical binary logic that separates public and private outside and inside culture and nature mind and places The first part of the work explores built spaces and addresses sustainable strategies not only to overcome an ecologic and systemic crisis but also to improve places liveability in our contemporary city The second part deals with our perception of aesthetic spaces welcoming the stimuli coming from neuro aesthetics studies on affordances and atmosphere and encouraging the intersection between interior architecture and design culture and arts The third part examines relational spaces and how they influence human behaviour starting from psychological anthropological and philosophical perspectives The book benefits scholars and practitioners interested in interior architecture and design as well as researchers involved in the relationship between people and places The new challenge posed by the recent pandemic requires more than ever to rely on consciousness culture and creativity to increase the intelligence of our surroundings allowing our sense of belonging and improving our personal and mutual well being
