Flesh In The Age Of Reason:

Flesh in the Age of Reason Roy Porter, 2004 Starting with the grim Britain of the Civil War era with its punishing sense of the body as a corrupt vessel for the soul Roy Porter charts how through figures as diverse as Locke Swift Johnson and Gibbon ideas about medicine politics and religion fundamentally changed notions of self He shows how the Enlightenment with its explosion of rational thinking and scientific invention of the eighteenth and nineteenth centuries provided a lens through which we can best see the profound shift from the theocentric otherworldly Dark Ages to the modern earthly body centered world we live in today As man made in God's image gave way to the Enlightenment's notion of the Self made man the body moved center stage Porter writes brilliantly on the ways in which men and women flaunted decorated tanned and dieted themselves activities that we find familiar but that a Puritan divine would have considered satanic And he explores how at the end of the century the human soul took on a new significance in the works of Godwin Blake and Byron BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Queens and Power in Medieval and Early Modern England* Carole Levin, R. O. Bucholz, 2009-03-01 In *Queens and Power in Medieval and Early Modern England* Carole Levin and Robert Bucholz provide a forum for the underexamined anomalous reigns of queens in history These regimes primarily regarded as interruptions to the normal male monarchy have been examined largely as isolated cases This interdisciplinary study of queens throughout history examines their connections to one another their constituents perceptions of them and the fallacies of their historical reputations The contributors consider historical queens as well as fictional mythic and biblical queens and how they were represented in medieval and early modern England They also give modern readers a glimpse into the early modern worldview particularly regarding order hierarchy rulership property biology and the relationship between the sexes Considering topics as diverse as how Queen Elizabeth's unmarried status affected the perception of her as a just and merciful queen to a reevaluation of good Queen Anne as more than just an obese conventional monarch this volume encourages readers to reexamine previously held assumptions about the role of female monarchs in early modern history Boswell's Enlightenment Robert Zaretsky, 2015-03-23 Throughout his life James Boswell struggled to fashion a clear account of himself but try as he might he could not reconcile the truths of his era with those of his religious upbringing Few periods better crystallize this turmoil than 1763-1765 the years of his Grand Tour and the focus of Robert Zaretsky's thrilling intellectual adventure **Religion, Magic, and Science in Early Modern Europe and America** Allison P. Coudert, 2011-10-17 This fascinating study looks at how the seemingly incompatible forces of science magic and religion came together in the 15th 16th and 17th centuries to form the foundations of modern culture As *Religion Magic and Science in Early Modern Europe and America* makes clear the early modern period was one of stark contrasts witch burnings and the brilliant mathematical physics of Isaac Newton John Locke's plea for tolerance and the palpable lack of it the richness of intellectual and artistic life and the poverty of material existence for all but a tiny percentage of the population

Yet for all the poverty insecurity and superstition the period produced a stunning galaxy of writers artists philosophers and scientists This book looks at the conditions that fomented the emergence of such outstanding talent innovation and invention in the period 1450 to 1800 It examines the interaction between religion magic and science during that time the impossibility of clearly differentiating between the three and the impact of these forces on the geniuses who laid the foundation for modern science and culture

Smell in Eighteenth-century England William Tullett,2019 In England from the 1670s to the 1820s a transformation took place in how smell and the senses were viewed The role of smell in developing medical and scientific knowledge came under intense scrutiny and the equation of smell with disease was actively questioned Yet a new interest in smell s emotive and idiosyncratic dimensions offered odour a new power in the sociable spaces of eighteenth century England Using a wide range of sources from diaries letters and sanitary records to satirical prints consumer objects and magazines William Tullett traces how individuals and communities perceived the smells around them from paint and perfume to onions and farts In doing so the study challenges a popular influential and often cited narrative Smell in Eighteenth Century England is not a tale of the medicalization and deodorization of English olfactory culture Instead Tullett demonstrates that it was a new recognition of smell s asocial sociability and its capacity to create atmospheres of uncomfortable intimacy that transformed the relationship between the senses and society

alternative to the postmodern triumvirate of Nietzsche Heidegger and Derrida Considers Hamann s work as a touchstone of modern Jewish Christian dialogue in view of debates with his friend Moses Mendelssohn Explores Hamann s role as the visionary founder of a metacritical movement that radically calls into question the basic principles of modern secular reason and thus reprises the debate between those defending Hamann s views and those labeling him the b te noir of the Enlightenment

The Reason Why Robert Kemp Philp,1869 **The Enlightenment and Original Sin** Matthew Kadane,2024-05-22 What was the Enlightenment This question has been endlessly debated In this book historian Matthew Kadane advances the bold claim that Enlightenment is best defined through what it set out to accomplish which was nothing short of rethinking the meaning of human nature Kadane argues that this project centered around the doctrine of original sin and ultimately its rejection signaling the radical notion that an inherently flawed nature can be overcome by human means Kadane explores these ambitious wide ranging themes through the story of the largely unknown Pentecost Barker an eighteenth century purser and wine merchant Examining Barker s diary and correspondence with a Unitarian minister Kadane tracks the transformation of Barker s consciousness from a Puritan to an Enlightenment outlook In one man s conversion Kadane tracks large scale shifts in self understanding whose philosophical reverberations would and have continued to shape debates on human nature for centuries to come *The Spectator* , **Genesis Understood** Lance

Thomas Wynn,2016-08-12 Did the giants exist They are written in the Bible history and archeology As you can see Cain is six feet taller than the dump truck 14 The wicked have drawn out the sword and have bent their bow to cast down the poor and needy and to slay such as be of upright conversation 15 Their sword shall enter into their own heart and their bows shall be broken 16 A little that a righteous man hath is better than the riches of many wicked 17 For the arms of the wicked shall be broken but the LORD upholdeth the righteous 18 The LORD knoweth the days of the upright and their inheritance shall be for ever 19 They shall not be ashamed in the evil time and in the days of famine they shall be satisfied 20 But the wicked shall perish and the enemies of the LORD shall be as the fat of lambs they shall consume into smoke shall they consume away Psalm 37 1420 King James Version

Enlightenment Crossings George Sebastian Rousseau,1991 **DENIAL OF EUNOMIUS** St. Gregory of Nyssa, The Anti-Manichaeon Writings Saint Augustine of Hippo,Aeterna Press, Enough probably has been done in our other books in the way of answering the ignorant and profane attacks which the Manichaeans make on the law which is called the Old Testament in a spirit of vainglorious boasting and with the approval of the uninstructed Here too I may shortly touch upon the subject For every one with average intelligence can easily see that the explanation of the Scriptures should be sought for from those who are the professed teachers of the Scriptures and that it may happen and indeed always happens that many things seem absurd to the ignorant which when they are explained by the learned appear all the more excellent and are received in the explanation with the greater pleasure on account of the obstructions which made it difficult to reach the meaning *Dictionary of Paul and His Letters* InterVarsity
