world Students walk away with a measured yet hopeful evaluation of the future challenges policymakers will confront as the American environmental movement continues to affect the political process      **Countdown to Kyoto, Parts I-III** United States. Congress. House. Committee on Science. Subcommittee on Energy and Environment, 1998      **Global Warming and Social Innovation** Andre Faaij, David Jager, Marcel Kok, 2013-06-17 Societies need to reduce emissions of greenhouse gases by 80 per cent in order to counter the risks of climate change This study envisions a climate neutral society one where the output of polluting gases is minimised by social innovations set up in households by local authorities through developments in information and communications technologies and dematerialization and through the shift towards product service systems and emissions trading The work discusses the possibilities for steering and orchestrating this long term transition towards a climate friendly society mapping paths through current dilemmas in climate policy and exploring the legal issues of making this transition      Christians, the Care of Creation, and Global Climate Change Lindy Scott, 2008-03-01 Christians the Care of Creation and Global Climate Change is a wake up call for Christians and others It is a cogent and persuasive call to love God and our neighbors by caring for creation especially in light of the dramatic climate changes occurring before our eyes This book is not the final word on the subject but it is a sincere invitation to examine the scientific evidence for global warming and to respond with individual and collective faithful actions CONTRIBUTORS Douglas Allen Jeffrey K Greenberg P J Hill Sir John T Houghton A Duane Litfin Ben Lowe Vincent E Morris L Kristen Page Lindy Scott Noah J Toly
