*Flickering Clusters* Cheryl L. Ney, 2001 *Flickering Clusters* documents an innovative project designed to attract and retain women and minority students in science mathematics and engineering The insightful inspiring essays discuss the development and implementation of the collaborative Women and Science Project which aimed to improve undergraduate science education by increasing faculty expertise in gender and science scholarship and pedagogy providing role models of professional women scientists improving the classroom and campus climate and creating science communities

*The Victim's Voice in the Sexual Misconduct Crisis* Mary L. Schuster, 2019-11-19 *The Victim's Voice in the Sexual Misconduct Crisis* investigates how a victim's voice identity credibility and proof are challenged or established in the current sexual misconduct crisis Using communication and rhetorical analysis gender studies and law and society perspectives Mary Schuster examines concerns such as victim impact statements offered in sentencing hearings of convicted offenders due process and Title IX requirements in campus sexual assault investigations and laws and Title VII standards governing workplace sexual harassment complaints Schuster also analyzes the testimony offered in the 1991 and 2018 U S Senate Judiciary Hearings regarding the Supreme Court nominations of Clarence Thomas and Brett Kavanaugh social movements such as Me Too and global activists efforts to challenge gender stereotypes and hierarchies This book argues that we cannot outlaw or legislate away sexual misconduct but must instead focus on cultural social and systemic changes in order to change the current climate Moreover the author argues for zero tolerance for sexual misconduct but recommends a gradation of punishment or sanctions for offenders offering examples of successful educational and therapeutic efforts to alter misconceptions regarding sexual misconduct Scholars of gender studies communication legal studies and rhetoric will find this book particularly useful

**Swimming Against the Tide** Sandra Hanson, 2009-06-15 They looked at us like we were not supposed to be scientists says one young African American girl describing one openly hostile reaction she encountered in the classroom In this significant study Sandra Hanson explains that although many young minority girls are interested in science the racism and sexism in the field discourage them from pursuing it after high school Those girls that remain highly motivated to continue studying science must swim against the tide Hanson examines the experiences of African American girls in science education using multiple methods of quantitative and qualitative research including a web survey and vignette techniques She understands the complex interaction between race and gender in the science domain and using a multicultural and feminist framework of analysis addresses the role of agency and resistance that encourages and sustains interest in science in African American families and communities
