Bernice weaves an unforgettable portrayal of life through the eyes of an immigrant to Australia in the 1950s through to the 1990s. Within the setting of her ever-changing location, Bernice's adventures as a doctor in outback South Australia then later as the first ever Asian woman elected to the South Australian State Parliament will leave you marvelling at her vulnerable but invincible spirit. Join Bernice as she guides you on a journey through childhood, university, travelling, marrying, doctoring, politics, family life and more of her extraordinary life's experiences.

European Discovery and Exploration of Australia Erwin Feeken, 2019-06-21 The map of Australia abounds with fascinating geographical place names the origins of which have for long been hidden in the journals of our early explorers. Now after nine years of research Erwin Feeken, a highly qualified cartographer and his wife Gerda have finalised the first complete record of Australian geographical place names and the most comprehensive general reference work on Australian exploration ever published. In *European Discovery and Exploration of Australia* there are twenty-three beautifully drawn four-colour maps plus index showing the routes of more than 120 explorers with the locality of their named features numbered to accord with a Key to the Maps. The place names in the Key have been numbered approximately in chronological order of their naming though places found during a single expedition have been grouped together. There is also a gazetteer containing over four thousand place names alphabetically arranged with notes on their origins. The map reference numbers in brackets form a cross-reference with the Key to the Maps. The work is introduced by a foreword from Lord Casey and an essay on the nature of Australian exploration by Professor O. H. K. Spate, director of the Research School of Pacific Studies, Australian National University. The text comprising a survey of Australian exploration is arranged in the form of biographies of the explorers describing for the first time several almost unknown figures with emphasis on their expeditions and under the following headings: The Approach to Australia, Exploration before Settlement, 1606-1788, From Botany Bay to the Blue Mountains, 1788-1813, Land and Sea Expeditions, 1813-1901. This section of the book is very fully illustrated with 18 full-colour plates and some 150 black and white photographs, mostly reproductions of early prints. Concluding the book are bibliographies of sources and references, a list of illustrations and an index of explorers and ships. The comprehensive nature of this work will ensure that it becomes a valuable reference book for students while the text and illustrations will appeal to all who are interested in our history. Collectors of Australiana will welcome this most attractive addition to the ever-increasing number of available publications.
