## **Floating Opera:**

*The Floating Opera* John Barth, 1981      **The Floating Opera and The End of the Road** John Barth, 1997-03-11 From the author of National Book Award nominated *Lost in the Funhouse* John Barth's first two novels are both existential comedies featuring strange consuming love triangles and the destructive effects of an overactive intellect on the emotions Barth ran riot over literary rules and conventions even as he displayed with meticulous discipline mastery of and respect for them The New York Times The relationship between these two darkly comic novels is evident not only in their ribald and philosophical subject matter but in their eccentric characters and bitterly humorous tone The protagonist of *The Floating Opera* is Todd Andrews an orphaned war veteran who has been sleeping with his friend's wife Todd awakens in the morning determined to commit suicide having concluded that nothing in life has intrinsic value but then spends the day methodically reasoning his way into disregarding that fact and remaining a part of the floating opera of life In *The End of the Road* a man named Jacob Horner finds himself literally paralyzed by an inability to choose a course of action from all possibilities He begins an unconventional course of mythotherapy treatment at the Remobilization Farm but his eccentric doctor's directives lead him into a tragic love triangle and from there to the nihilistic end of the road Separately these two novels give two very different views of the universal human quest for meaning and together they form the beginnings of an illustrious literary career

*Once Upon a Time* John Barth, 1995-05-18      *Theories of Play and Postmodern Fiction* Brian Edwards, 2013-05-13 Drawing on developments in critical theory and postmodernist fiction this study makes an important contribution to the appreciation of playforms in language texts and cultural practices Tracing trajectories in theories of play and game and with particular attention to the writings of Nietzsche Wittgenstein Bakhtin and Derrida the author argues that the concept of play provides perspectives on language and communication processes useful both for analysis of literary texts and also for understanding the interactive nature of constructions of knowledge Exploring manifestations of game and play throughout the history of Western culture from Plato to Pynchon this study traces developments in 20th century cultural and literary theory of ideas about play in the writings of Johan Huizinga Roger Caillois Jacques Ehrmann Bernard Suits James Hans Mihai Spariosu and Robert Rawdon Wilson The author emphasizes post structuralist developments with specific attention to deconstruction and reception theory and argues that deconstruction makes the most significant recent contribution to play theory in its application to language and to literature The work also explores the modes and effects of playforms in particular examples of postmodernist fiction With attention to major works from Thomas Pynchon *Gravity's Rainbow* John Barth *LETTERS* Robert Kroetsch *What the Crow Said* Angela Carter *Nights at the Circus* and Peter Carey *Illywhacker* Edwards acknowledges and deconstructs such basic oppositions as play and seriousness fiction and truth difference and identity to explore the literature's cultural political significance Seeking to affirm the fiction's continuing social relevance the readings presented in this book place play irresistibly at the heartland of language meaning and culture      **Supplanting the**

**Postmodern** David Rudrum, Nicholas Stavris, 2015-09-24 For more than a decade now a steadily growing chorus of voices has announced that the postmodern literature art thought and culture of the late 20th century have come to an end At the same time as this the early years of the 21st century have seen a stream of critical formulations proclaiming a successor to postmodernism Intriguing and exciting new terms such as remodernism performatism hypermodernism automodernism renewalism altermodernism digimodernism and metamodernism have been coined proposed and debated as terms for what comes after the postmodern Supplanting the Postmodern is the first anthology to collect the key writings in these debates in one place The book is divided into two parts the first The Sense of an Ending presents a range of positions in the debate around the demise of the postmodern the second Coming to Terms with the New presents representative writings from the new isms mentioned above Each of the entries is prefaced by a brief introduction by the editors in which they outline its central ideas point out the similarities and or differences from other positions found in the anthology and suggest possible strengths and limitations to the insights presented in each piece

**Beyond Suspicion** Marc Chenetier, 1996-01-29 Selected by Choice magazine as an Outstanding Academic Book for 1996

**The Passing of Postmodernism** Josh Toth, 2010-03-24 The Passing of Postmodernism addresses the increasingly prevalent assumption that a period marked by poststructuralism and metafiction has passed and that literature and film are once again engaging sincerely with issues of ethics and politics In discussions of various twentieth and twenty first century writers directors and theorists from Michel Foucault and Slavoj i ek to Thomas Pynchon and David Lynch Josh Toth demonstrates that a certain utopian spirit persisted within and actually defined the postmodern project Just as modernism was animated by an idealistic belief that it could finally realize the utopia beckoning on the horizon postmodernism was compelled by an equally utopian belief that it could finally reject the possibility of all such illusory ideals Toth argues that this specter of an impossible future is and must remain both possible and impossible a ghostly promise of what is always still to come Josh Toth teaches literature and critical theory at Grant MacEwan College and is coeditor with Neil Brooks of The Mourning After Attending the Wake of Postmodernism

Law and Literature Richard A. Posner, 2009-04-30 First edition published in 1988 Law and literature a misunderstood relation revised and enlarged edition published in 1998

Nihilism and the Sublime Postmodern William Slocombe, 2013-11-05 This book examines the relationship between nihilism and postmodernism in relation to the sublime and is divided into three parts history theory and praxis Arguing against the simplistic division in literary criticism between nihilism and the sublime the book demonstrates that both are clearly implicated with the Enlightenment Postmodernism as a product of the Enlightenment is therefore implicitly related to both nihilism and the sublime despite the fact that it is often characterised as either nihilistic or sublime Whereas prior forms of nihilism are modernist because they seek to codify reality postmodernism creates a new formulation of nihilism postmodern nihilism that is itself sublime This is explored in relation to a broad survey of postmodern literature in two chapters the first on aesthetics and the second on ethics It offers a coherent thesis for

reappraising the relationship between nihilism and the sublime and grounds this argument with frequent references to postmodern literature making it a book suitable for both researchers and those more generally interested in postmodern literature

The Cambridge History of American Literature: Volume 7, Prose Writing, 1940-1990 Sacvan Bercovitch, Cyrus R. K. Patell, 1994 Volume VII of the Cambridge History of American Literature examines a broad range of American literature of the past half century revealing complex relations to changes in society Christopher Bigsby discusses American dramatists from Tennessee Williams to August Wilson showing how innovations in theatre anticipated a world of emerging countercultures and provided America with an alternative view of contemporary life Morris Dickstein describes the condition of rebellion in fiction from 1940 to 1970 linking writers as diverse as James Baldwin and John Updike John Burt examines writers of the American South describing the tensions between modernization and continued entanglements with the past Wendy Steiner examines the postmodern fictions since 1970 and shows how the questioning of artistic assumptions has broadened the canon of American literature Finally Cyrus Patell highlights the voices of Native American Asian American Chicano gay and lesbian writers often marginalized but here discussed within and against a broad set of national traditions

**Passionate Virtuosity** Charles B. Harris, 1983 **Text to Reader** Theo Dijkhaen, 1983-01-01 Text to Reader seeks to find a critical approach that links a novel's form to its socio cultural context Combining elements from Iser's reception aesthetics speech act theory and Goffman's frame analysis this book starts from the assumption that a reader has certain conventional expectations with regard to a novel and then goes on to examine how violations of these expectations rule the reader's relationship to the novel The theory sketched in the first chapter is then in four subsequent chapters applied to *The French Lieutenant's Woman* by the English author John Fowles *Letters* by the American John Barth *Libro de Manuel* by the Argentinean Julio Cortázar and *De Kapellekensbaan* by the Flemish novelist Louis Paul Boon The particular form each of these novels takes is analyzed as correlative to that novel's communicative function This book will be of interest to comparatists students of English and American literature and the literatures of Latin America and the Low Countries

**On Endings** Daniel Grausam, 2011 What does narrative look like when the possibility of an expansive future has been called into question This query is the driving force behind Daniel Grausam's *On Endings* which seeks to show how the core texts of American postmodernism are a response to the geopolitical dynamics of the Cold War and especially to the new potential for total nuclear conflict Postwar American fiction needs to be rethought he argues by highlighting postmodern experimentation as a mode of profound historical consciousness In Grausam's view previous studies of fiction mimetically concerned with nuclear conflict neither engage the problems that total war might pose to narration nor take seriously the paradox of a war that narrative can never actually describe Those few critical works that do take seriously such problems do not offer a broad account of American postmodernism And recent work on postmodernism has offered no comprehensive historical account of the part played by nuclear weapons in the emergence of new forms of temporal and historical experience *On Endings*

significantly extends the project of historicizing postmodernism while returning the nuclear to a central place in the study of the Cold War

**John Barth** David Morrell, 2015-12-16 In 1969 while David Morrell was writing *First Blood* the novel in which Rambo was created he also wrote his doctoral dissertation about acclaimed author John Barth In it Morrell analyses Barth s early fiction using interviews with Barth his agent and his editors as well as several of Barth s unpublished essays and letters to tell what Morrell calls the story behind the stories a biography of Barth s fiction Over the years scholars have found John Barth An Introduction invaluable for its lengthy biographical sections which Barth himself approved Fans of Morrell s fiction will find this book enlightening in terms of what Barth taught him about writing

**CRITICAL REACTION** David Morrell s not just a fine writer he s also a great and generous teacher New York Times bestselling author Lawrence Sanders Morrell has written an interesting and informative book which reads occasionally like a biography His prose is eminently clear and straightforward His book has something for everyone There is no doubt that it will become a necessity for serious students of Barth and that coincidentally it is a genuinely interesting book *Journal of Modern Literature* Morrell s study tells the story of Barth s storytelling how he got his ideas and then how the publishers and reviewers dealt with them He includes detailed biographical information and writes with great economy and clarity *Modern Fiction Studies* Morrell gives the reader the benefit of his familiarity with Barth and his manuscripts to plot the career of each work from plans and in some cases research through revision publisher agent reactions sales and post publication revisions The whole enterprise is carried off with appealing confidence and informality that add up to an eminently readable book *World Literature Today*

**Fictions of Fact and Value** Michael LeMahieu, 2013-10-02 *Fictions of Fact and Value* argues that the philosophy of logical positivism considered the antithesis of literary postmodernism exerts a determining influence on the development of American fiction in the three decades following 1945 in what amounts to a constitutive encounter between literature and philosophy at mid

century after the end of modernism as it was traditionally conceived but prior to the rise of postmodernism as it came to be known Two particular postwar literary preoccupations derive from logical positivist philosophy the fact value problem and the correlative distinction between sense and nonsense Even as postwar writers responded to logical positivism as a threat to the imagination their works often manifest its influence specifically with regard to emotive or meaningless terms Far from a straightforward history of ideas Fictions of Fact and Value charts a genealogy that is often erased in the very texts where it registers and disowned by the very authors that it includes LeMahieu complicates a predominant narrative of intellectual history in which a liberating postmodernism triumphs over a reactionary positivism by historicizing the literary response to positivism in works by John Barth Saul Bellow Don DeLillo Iris Murdoch Flannery O Connor Thomas Pynchon and Ludwig Wittgenstein As LeMahieu compelling demonstrates the centrality of the fact value problem to both positivism and postmodernism demands a rethinking of postwar literary history A trenchantly argued study that unearths an important part of postwar literary history Fictions of Fact and Value will interest anyone concerned with postmodernism modernist studies analytic philosophy or the history of ideas

**Showboats** Philip Graham, 2014-01-30 This book is a delightful and authoritative record of America's showboats from the first one launched in 1831 to the last ultimately tied up at a St Louis dock It is also a record of the men and women who built and loved these floating theaters of those who performed on their stages and of the thousands who sat in their auditoriums And lastly it is a record of a genuine folk institution as American as catfish which for more than a century did much to relieve the social and cultural starvation of our vast river frontier For these showboats brought their rich cargoes of entertainment genuine laughter a glimpse of other worlds a respite from the grinding hardship of the present emotional relaxation to valley farmers isolated factory workers and miners and backwoodsmen who otherwise would have lacked all such opportunities To the more privileged the showboats brought pleasant reminder of a half forgotten culture They penetrated regions where churches and school had not gone and where land theaters were for generations to be impossible Like circuit preachers they carried their message to the outer fringes of American civilization In spite of many faults it was a good message The frontier had created this institution to fill a genuine need and it lasted only until other and better means of civilizing these regions could reach them good roads automobiles motion pictures schools churches newspapers and theaters But although the showboats have passed into history they have left a rich legacy As long as the Mississippi flows into the Gulf their story will fire the imagination of Americans Showboating has become so legendary that few Americans know what this unique institution was really like In Showboats at long last the true story emerges It differs in many important respects from the motion picture and fictional versions to which Americans are accustomed but it is not a whit the less glamorous Philip Graham has told his story with imagination genuine insight and complete devotion to facts No one who is interested in America's past should fail to read it

Steamboats on Louisiana's Bayous Carl A. Brasseaux, Keith P. Fontenot, 2004-11-01 In an extraordinary feat of research and intrepid historical navigation Carl A Brasseaux and Keith P Fontenot serve as guides through the labyrinthian and often harrowing world of Louisiana bayou steamboat journeys of the mid to late nineteenth century The bayou country s steamboat saga mirrors in microcosm the tale of America s most colorful and most highly romanticized transportation era But Brasseaux and Fontenot brace readers with a boldly revisionist picture of the opulent Mississippi River floating palaces stripped down utilitarian freight haulers belching smoke from twin stacks churning through shallow swamps and narrow tributary streams

and encountering such hazards as shoals sawyers stumps highwater and dry bed seasons and the remains of vessels claimed by those treacheries For decades steamboats transported goods passengers and mail between New Orleans and south Louisiana s vibrant interior agricultural region bearing testimony to the resourcefulness ingenuity and tenacity of crews in conquering the challenges posed by a forbidding environment Brasseaux and Fontenot marshaled a monumental array of information including sources long buried in courthouses private collections and the records of the Army Corps of Engineers They offer data on some five hundred steamboats keelboats and barges known to have operated in the bayou country This book is the first major study of a fascinating slice of the steamboat industry showcasing a trade critically important to New Orleans s prosperity but largely forgotten in southern historiography until now Encompassing economic social transportation and environmental history it captures the period just before the iron horse emerged as America s undisputed master of inland conveyance
