Congress,1928 *Flood Early Warning Systems* Daniela Molinari,Scira Menoni,Francesco Ballio,2013 Presenting the results of an ambitious research activity this book intends to understand why Early Warning Systems EWSs fail However from the beginning the objective turned out to be challenging first because so far there is not a shared understanding of what an EWS is among both researchers and practitioners communities second as a consequence because it is equally unclear when an EWS can be considered successful or not Due to this the research needed first to face some open questions instead of going straight to the point under investigation Specifically it was first necessary to define EWS identify its components and functions peculiarities and weak points Only at that point a first attempt to evaluate EWS performance was possible Flood Early Warning Systems Performance is organised according to the conceptual steps required by the research In part I the open questions about the definition and the role of EWSs are handled the aim being the identification of how to evaluate their effectiveness performance Part II focuses on the real aim of the research providing concepts and tools to assess EWS performance suggested tools are also implemented in a case study to describe how they can be applied in practice Focusing specifically on the topic of flood risk in mountainous regions the book can be viewed as a sort of manual for EWS designers managers and users It is organised into different independent sections which will appeal both to experts as well as those with an interest in the subject Most of results can also be exported to other hazards *Introduction to Emergency Management, Enhanced* George Haddow,Kim S Haddow,Damon Coppola,2014-09-05 Introduction to Emergency Management Fifth Edition offers a fully up to date analysis of US emergency management principles In addition to expanding coverage of risk management in a time of climate change and terrorism Haddow Bullock and Coppola discuss the impact of new emergency management technologies social media and an increasing focus on recovery They examine the effects of the 2012 election results and discuss FEMA s controversial National Flood Insurance Program NFIP Introduction to Emergency Management Fifth Edition gives instructors and students the best textbook content instructor support materials and online resources to prepare future
