Florentine Histories New Translation Introduction By Harvey Mansfield Jr:

Florentine Histories Niccolò Machiavelli, 2020-05-05 The description for this book *Florentine Histories* will be forthcoming **The Machiavellian Cosmos** Anthony Parel, Emeritus Professor of Political Science Anthony J Parel, 1992-01-01 In this highly original interpretation of Machiavelli's thought Anthony J Parel identifies a theme generally neglected in the scholarship of this sixteenth century political thinker Machiavelli's belief in the occult forces of heaven and humors Challenging the current tendency to view Machiavelli as a pioneer of modern political science Parel argues instead that a premodern cosmology and anthropology underlie Machiavelli's political works Parel shows that Machiavelli's world picture owes more to the astrological cosmology prevalent in the Renaissance than to the Aristotelian or Platonic or Christian world picture This astrological determination significantly affects Machiavelli's conceptions of history politics and religion and shapes his notions of virtue and fortuna It also has considerable impact on his ethical ideas the Machiavellian cosmos has no room for a Ruling Mind or for the Sovereignty of the Good and humans are left to pursue their appetites for riches and glory as best they can In a similar fashion says Parel Machiavelli's political anthropology is influenced by the ancient idea that body humors determine a person's temperament and behavior for he believes that humors compromise human autonomy and rationality According to Parel the theory of humors also affects Machiavelli's view of the body politic and his characterization of republics principalities and *licenzia* and Parel explicates this in new readings of *The Prince* the Discourses and the *Florentine Histories*

Blahuta,2015-04-16 Times of prolonged conflict spur great minds to seek a lasting peace Thus was the case of Warring States China which saw the rise of the Hundred Schools of Thought including the Daoeijing and the Han Feizi and Renaissance Italy which produced Niccol Machiavelli Witnessing their respective societies fall prey to internal corruption and external aggression all three thinkers sought ways to produce a strong stable state that would allow both the leader and the populace to endure Fortune and the Dao A Comparative Study of Machiavelli the Daodejing and the Han Feizi demonstrates where the shortcomings of each theory lie with emphasis on the similarities among Machiavelli Laozi and Han Feizi Jason P Blahuta ultimately argues that if Machiavelli s philosophy the most comprehensive of the three theories were supplemented by aspects of the Daodejing the revision would potentially overcome the deficiencies of the original **Machiavelli's Three Romes** Vickie B. Sullivan,2020-01-15 Machiavelli s ambiguous treatment of religion has fueled a contentious and long standing debate among scholars Whereas some insist that Machiavelli is a Christian others maintain he is a pagan Sullivan mediates between these divergent views by arguing that he is neither but that he utilizes elements of both understandings arrayed in a wholly new way In this illuminating study Sullivan shows Machiavelli s thought to be a highly original response to what he understood to be the crisis of his times History ,1991 **A Companion to the Medieval World** Carol Lansing,Edward D.  Elet, 2018-01-11 Villa Madama Raphael's late masterwork of architecture landscape and decoration for the Medici popes is a
 paradigm of the Renaissance villa The creation of this important unfinished complex provides a remarkable case study for the
 nature of architectural invention Drawing on little known poetry describing the villa while it was on the drawing board as
 well as ground plans letters and antiquities once installed there Yvonne Elet reveals the design process to have been a
 dynamic collaborative effort involving humanists as well as architects She explores design as a self reflexive process and the
 dialectic of text and architectural form illuminating the relation of word and image in Renaissance architectural practice Her
 revisionist account of architectural design as a process engaging different systems of knowledge visual and verbal has
 important implications for the relation of architecture and language meaning in architecture and the translation of idea into

of English Renaissance Drama A. J. Hoenselaars, 1998 It is widely accepted that English Renaissance drama owes its
 extraordinary richness and variety to the blending of elements originating from the medieval heritage and classical and
 Italian dramatic traditions This grafting of the Italian world onto the English Renaissance goes far beyond the conventional
 research of the literary sources The articles in this collection explore English Renaissance drama through new and
 challenging aspects of influence and through investigations into classical and Italian theater The volume moves from early
 Elizabethan to late Jacobean drama The area of research ranges from New Classical Comedy to commedia erudita from the
 Renaissance theory of tragedy and tragicomedy to the birth of pastoral drama and beyond The British National
Bibliography Arthur James Wells, 1992 **The Latest Catastrophe** Henry Rousso, 2016-07-06 The writing of recent history
 tends to be deeply marked by conflict by personal and collective struggles rooted in horrific traumas and bitter controversies
 Frequently today's historians can find themselves researching the same events that they themselves lived through This book
 reflects on the concept and practices of what is called contemporary history a history of the present time and identifies
 special tensions in the field between knowledge and experience distance and proximity and objectivity and subjectivity Henry
 Rousso addresses the rise of contemporary history and the relations of present day societies to their past especially their
 legacies of political violence Focusing on France Germany the United Kingdom and the United States he shows that for
 contemporary historians the recent past has become a problem to be solved No longer unfolding as a series of traditions to
 be respected or a set of knowledge to be transmitted and built upon history today is treated as a constant act of mourning or

memory an attempt to atone Historians must also negotiate with strife within this field as older scholars who may have lived through events clash with younger historians who also claim to understand the experiences Ultimately The Latest Catastrophe shows how historians at times against their will have themselves become actors in a history still being made
