Points of Departure Peter Fenves,2016-11-15 Since the late 1960s when he introduced Theodor Adorno s work on literature and cultural critique to an English speaking public Samuel Weber has stimulated the discovery of new and unexpected links within a broad spectrum of humanistic disciplines including critical theory and psychoanalysis media studies and literary analysis continental philosophy and theater studies The international group of scholars who contribute to Points of Departure demonstrate the persistent fecundity of Weber s work Centered around his essay on the Ghost of Hamlet as reflected in the writings of Walter Benjamin and Carl Schmitt the volume is broadly divided into explorations of the nature of spectrality on the one hand and the dynamics of reading on the other Each of the twelve essays thus takes its point of departure from Weber s singular path between languages cultures and traditions to quote Jacques Derrida whose fictive interview with a passing journalist is published here for the first time     **Catalog of Copyright Entries. *Missions of Interdependence* Gerhard Stilz,2002 At the beginning of the twenty first century it is necessary to combine into a productive programme the striving for individual emancipation and the social practice of humanism in order to help

the world survive both the ancient pitfalls of particularist terrorism and the levelling tendencies of cultural indifference engendered by the renewed imperialist arrogance of hegemonial global capital In this book thirty five scholars address and negotiate in a spirit of learning and understanding an exemplary variety of intercultural splits and fissures that have opened up in the English speaking world Their methodology can be seen to constitute a seminal field of intellectual signposts They point out ways and means of responsibly assessing colonial predicaments and postcolonial developments in six regions shaped in the past by the British Empire and still associated today through their allegiance to the idea of a Commonwealth of Nations They show how a new ethic of literary self assertion interpretative mediation and critical responsiveness can remove the deeply ingrained prejudices silences and taboos established by discrimination against race class and gender
