Impressions of Arabia Thierry mauger,2020-10-11 With its awe inspiring landmarks its dense woodlands and the
 delightful coolness of its mountain tops the region of Asir stands in sharp contrast to the usual patterns of Saudi Arabian
 landscape This could have been the site of the Garden of Eden wrote St John Philby in the 1930s and as this extraordinary
 book of photographs demonstrates the claim still holds true today The story of the author s two journeys around the Asir
 region is told through the architecture frescoes and lifestyles of the people Granted royal approval for his second project
 Thierry Mauger has been able to gain access to previously unseen interiors and to win the trust of the people In the process
 he reveals how the art of the Asir region the hand painted brightly colored interior decoration the painted facades the
 symbolism of the architecture and the unique landscape form a complex code which provides valuable insights into
 understanding this little known culture In the midst of Westernizing trends the author demonstrates the strong traditional
 forces which imbue the art and architecture of Asir today New architecture is taking up forms and ornamentation from
 traditional regional styles and as the author shows the painted interiors by Asiri women resonate with the traditions of magic
 and religion blended with new images drawn from the contemporary culture decoration frescoes house majlis men motifs
