West negotiations leading to the Helsinki Final Act of 1975 Based on extensive original research of recently released documents spanning more than fifteen archives in eight countries this study is a substantial contribution to scholarly discussions on the history of détente the CSCE and West German foreign policy The author stresses the importance of looking beyond the bipolarity of the Cold War decades and emphasizes the interconnectedness of European integration and European détente He highlights the need to place the genesis of the CSCE conference in its historical context rather than looking at it through the prism of the events of 1989 and shows that the bilateral and multilateral elements Ostpolitik and the CSCE were parallel rather than successive phenomena parts of the same complex process and in constant interaction with each other
