German Writers and the Politics of Culture Paul Cooke,Andrew Plowman,2003-12-09 Before the fall of the Berlin Wall many East German writers were praised in the Western world as dissident voices of truth bravely struggling with the draconian constraints of living under the GDR s communist regime However since unification Germany has been rocked by scandals showing the level to which the Stasi the East German Secret Police controlled these same writers This is the first study in English to systematically explore how the writers have responded to the challenge of dealing with the Stasi from the 1950s to the present day **From Madman to Crime Fighter** Roslynn D. Haynes,2017-08-31 A study of the scientist in Western culture from medieval images of alchemists to present day depictions of cyberpunks and genetic engineers They were mad of course Or evil Or godless amoral arrogant impersonal and inhuman At best they were well intentioned but blind to the dangers of forces they barely controlled They were Faust Frankenstein Jekyll Moreau Caligari Strangelove the scientists of film and fiction cultural archetypes that reflected ancient fears of tampering with the unknown or unleashing the little understood powers of nature In From Madman to Crime Fighter Roslynn D Haynes analyzes stereotypical characters including the mad scientist the cold blooded pursuer of knowledge the intrepid pathbreaker and the bumbling fool that from medieval times to the present day have been used to depict the scientist in Western literature and film She also describes more realistically drawn scientists characters who are conscious of their public responsibility to expose dangers from pollution and climate change yet fearful of being accused of lacking evidence Drawing on examples from Britain America Germany France Russia and elsewhere Haynes explores the persistent folklore of mad doctors of science and its relation to

popular fears of a depersonalized male dominated and socially irresponsible pursuit of knowledge for its own sake She concludes that today's public response to science and scientists much of it negative is best understood by recognizing the importance of such cultural archetypes and their significance as myth From Madman to Crime Fighter is the most comprehensive study of the image of the scientist in Western literature and film **Contemporary German Prose in Britain and France (1980-1999)** Wiebke Sievers, 2007 This case study of the translation of contemporary German literature in Britain and France seeks to address the philosophical and anthropological problem of otherness and to discover its significance for translation theory This work should appeal to scholars interested in German British and French literature translation theory philosophy and sociology central component of the translation process Moreover via disciplines such as philosophy and anthropology otherness in the last two decades has entered Western theories and studies of translation and become an important analytical and normative category in the field of translation studies Nevertheless there is an apparent lack of research considering the concept itself as well as its history and current use in the field and its relevance for the practice of translation the translation theories currently known as foreignizing and shows that some of these draw on the same nationalist agenda that they try to transcend Moreover the ensuing case study proves that current translation practice is still governed by a nationalist assurance of linguistic and cultural differences This book therefore concludes by calling for a change of perspective in the theoretical and practical approaches to translation Translation should no longer be regarded as a means of delimiting our selves from a national other but as a way to uncover the otherness underlying these alleged selves

The British Library General Catalogue of Printed Books 1976 to 1982 British Library, 1983 **Women and Gender in Central and Eastern Europe, Russia, and Eurasia** Mary Zirin, Irina Livezeanu, Christine D. Remembering and Rethinking the GDR A. Saunders, D. Pinfold, 2012-12-15 Exploring the ways in which the GDR has been remembered since its demise in 1989 90 this volume asks how memory of the former state continues to shape contemporary Germany Its contributors offer multiple perspectives on the GDR and offer new insights into the complex relationship between past and present **Flugasche**, 1987 **Litfass**, 1983 **"Doch das Paradies ist verriegelt--"** Elke

Gilson,2006 **Ficción histórica y realidad literaria** Olga Hinojosa Picón,2010 Percibir la realidad en consonancia con los parámetros que imponen determinados sistemas políticos implica acatar típicamente unas leyes que adquieren de esta forma validez universal. Unas leyes que garantizan la convivencia pacífica entre los ciudadanos que conforman la cultura de una zona geográfica concreta. Pero ¿qué ocurre cuando un individuo entra en conflicto con su entorno inmediato? Cuando decide alzar su voz para cuestionar la legitimidad de la verdad en la que hasta ese momento ha basado su existencia? Cuando además sus argumentos ponen en entredicho la solidez de las estructuras en las que se asienta la sociedad en la que se encuentra inmerso? ¿Qué sucede cuando se cuestiona la validez de esa realidad recurriendo a la ficción? La búsqueda de respuestas a estas cuestiones constituye el hilo conductor del presente volumen que tomando como referencia las tres primeras novelas de Monika Maron: *Flugasche*, *Die berlauerin* y *Stille Zeile*. Seis surgidas en la década de los ochenta del siglo pasado en la Alemania oriental se propone mostrar cómo la literatura puede proyectar un mundo alternativo al real, no necesariamente más ficticio. Con ese fin la aproximación a la obra literaria se realiza desde una perspectiva neohistoricista deteniéndose en aspectos como la crisis de identidad del personaje de ficción y sus conexiones con el autor, el conflicto entre las diferentes versiones de la realidad recogidas en una misma época en todo tipo de textos narrativos así como en la importancia de no desvincular la cultura del poder que la sustenta.

Umbruch - Bild - Erinnerung Carolin Führer, Antonius Weixler, 2022-01-17. Umbrüche markieren historische Zäsuren und teilen unser Geschichtsbewusstsein in ein Davor und Danach. Bilder helfen uns diese Zäsuren zu begreifen und greifbar zu machen; sie eignen sich aber auch in besonderer Weise zur Emotionalisierung unserer historischen Wahrnehmungen, indem sie im Gestus des Faktischen auftreten und eine stark vereinfachende Sicht des komplexen Phänomens Umbruch erlauben. Anhand unterschiedlicher zeithistorischer transnationaler medialer Beispiele wird untersucht, wie mit und durch Bilder Umbrüche registriert und erinnert werden und welche Sinnstiftungs-, Narrativisierungs- und Interpretationsangebote für die Bearbeitung und Bewältigung von Veränderungen durch Bilder entwickelt werden. Umbrüche scheinen hierbei weltweit in ganz unterschiedlichen historischen und kulturellen Kontexten einerseits zu ästhetischen Innovationen und zu neuen Formen des Erzählens zu führen; andererseits werden Umbrüche überhaupt erst durch Bilder und damit verbundenes bildliches sowie visuelles Erzählen und damit durch Erinnerungsdiskurse ex post manifest und erfahrbar. Transitions mark historical breaches and divide our history awareness into a before and after. Images help us to understand these breaches and assess them. However, they are also suitable for emotionalising our conception in a particular way by appearing in the gesture of facts, thus enabling a strong simplified perspective on complex phenomena. With the help of various historical transnational media examples, the contributors analyse how transitions have been registered and remembered by images and which meaning narrative and interpretation methods are being developed for coping with changes through images. On the one hand, transitions seem to lead to aesthetic innovations and new forms of narratives in different international historical and cultural contexts. On the other hand,

transitions can only become ex post manifest and accessible through images visualised narratives and discourses of remembrance

Law in West German Democracy Hugh Ridley, 2019-10-01 Law in West German Democracy relates the history of the Federal Republic of Germany as seen through a series of significant trials conducted between 1947 and 2017 explaining how these trials came to take place the legal issues which they raised and their importance to the development of democracy in a country slowly emerging from a murderous and criminal r game It thus illustrates the central issues of the new republic If as a Minister for Justice once remarked crime can be seen as the reverse image of any political system the shadow cast by the social and economic structures of the day it is natural to use court cases to illuminate the eventful history of the Federal Republic s first seventy years andererseits - Yearbook of Transatlantic German Studies William Collins Donahue, Georg Mein, Rolf Parr, 2023-06-22
