Under a Watchful Eye Harry Walker, 2013 In this beautifully written study of Urarina mastery of life Walker demonstrates the continued importance of careful ethnographic attention to historically emergent forms of subjectivity Walker s perceptive attention to social values and organising principles helps us understand how the Urarina transcend predation identity and difference We are transported to the heart of a society both more individualising and more communalist than the ones we have grown up in Laura Rival author of Trekking through history The Huaorani of Amazonian Ecuador i A celebration of Urarina understandings of the individual and the social world Under a Watchful Eye unveils the many paradoxes of native Amazonian sociality Well written and finely crafted the book critically engages with issues raised by perspectivism incorporation theory and constructional approaches proposing novel and stimulating insights on indigenous notions of living well Fernando Santos Granero author of Vital Enemies Slavery Predation and the Amerindian Political Economy of Life This book is based on the sensitive and multi layered ethnography which only real long term participant observation can produce We are convinced by detailed supporting evidence and never lost as is the case for some Amazonian ethnography in formulations which having acquired an academic life of their own seem impossibly remote from the experience of shared human practice Maurice Bloch author of How We Think They Think Anthropological Studies in Cognition Memory and Literacy
