international scene to American air lawyers so that they may guide their clients who provide foreign service New chapters on liability for cargo damage and for ground damages have been added and new materials on the legal rights of lessors successors actual carriers and code shares A chapter on environmental regulation of aviation noise and emissions is also new All the main subjects listed in the first edition are significantly updated The three authors are veteran transportation lawyers and continue their activities in this field **African American Lives** Henry Louis Gates Jr., Evelyn Brooks

Fighter Pilot Brick amassed over 4500 hours and over 1000 carrier landings during multiple combat deployments So he understands all too well the critical importance of leadership in enabling those under his command to take off and return safely Every parent wants the same to have our children take off into the world and its adventures but to return home safely at the end of the day Connors links thrilling life and death experiences in leadership adversity and performance to practices and takeaways that will guide parents grandparents coaches military personnel and anyone else who wants to raise develop and lead children and young people Through tools gleaned from his own experience as a pilot parent and coach Connors shows how we can redefine our own leadership skills and develop the same in children so that they are equipped to deal with the unavoidable hazards of growing up As parents if we re not happy with how we ve handled parenting challenges in the past we will find ways to reevaluate and alter our course if we have acted on values and beliefs that were not always ideal we will learn how to take a different approach one that can lead our children to extraordinary trajectories increased success and lifelong happiness
