The Colored Boys is Top Gun II with all the thrills dangers and aerial exploits of the first only better This is the story of aviators who fly F 14 Tomcats amazing complex and phenomenal machines possessing technology that was light years ahead of their time Two black men from very different backgrounds believe that they can break into the demanding world of naval tactical aviation and learn to fly operate and master these machines and the technology they possess While young and naive these men are also amazingly confident determined and driven type A personalities who take on the challenges that their chosen profession and dynamic careers demand Told through their eyes their personalities and their experiences we follow them as they evolve from terrified aviation officer candidates to commissioned officers into seasoned aviators The Colored Boys follows them from their induction in Naval Officer Candidates School through the myriad of challenges terror and joys of flight school the demands of the replacement air group and then to the demands of squadron life in the fleet They train develop teach and grow and then they are thrust into the life and death struggles of war in the Persian Gulf There they enter combat and must fight for their survival in a war that tests their mettle as human beings as aviators and as men The Colored Boys is also about the navy the real navy a beloved but highly traditionalized institution that

must grapple with the integration of these men into its culture into its strict caste system of officers persons commissioned and positioned to command sailors and the men and women they command and serve who sometimes unconsciously sometimes quite consciously resist change and have deeply ingrained revulsion prejudices and aversion to black men that they sometimes dont even recognize or believe exists within themselves This is the story of how these two men face tackle and overcome the invisible and mostly covert but highly prevalent racism and still excel in the already highly demanding world of naval aviation This is the story of these phenomenal flying machines the amazing men who fly them and the demanding missions that they perform daily as they serve this nation as members of the United States Navy Two African American men who fight to prove to others to the navy and ultimately to themselves that they do indeed belong that they can hack it that they too have the right stuff They are many things to many people but ultimately they prove that they are not merely black men not just commissioned officers and not just Americans They are naval aviators Dragons of the Air Harry Govier Seeley,1901 The Monster Magnus Vol.I Robert Neri,2015-07 The Monster Magnus I contain descriptions for over 100 monsters not including sub types plus templates to modify those The manual also contains information for Player Races which include the traditional RPG stand bys as well as several new races This is the first in a short series of Monster Manuals for the Dice Glory Roleplaying Game focusing on the basic creatures Player Races Animals Vermin Undead Therians etc
