**Flight of the Gods** Ilse Nina Bulhof, Laurens ten Kate, 2000 Contemporary continental philosophy approaches metaphysics with great reservation A point of criticism concerns traditional philosophical speaking about God Whereas Nietzsche with his question God is dead who killed Him was in his time highly unzeitgem and shocking the twentieth century by contrast saw Heidegger s concept of onto theology and its implied problematization of the God of the metaphysicians quickly become a famous term In Heidegger s words to a philosophical concept or being we can neither pray nor kneel Heidegger did not however return to the God of Christian faith He tried to initiate a new way of speaking about God a way that reveals the limits of philosophical discourse Derrida Marion Bataille Adorno Taubes and Bakhtin each in their own way continue this exploration begun by Nietzsche and Heidegger This book takes a fresh look at these developments The death of God as the editors say in an introductory study announces not so much the death of the old God the God of philosophers theologians and believers but rather the death of the god who put himself on His throne autonomous human reason In listening to the reactions to this dethronement of autonomous reason the editors believe they hear the echoes of an experience of an embarrassment rooted partly in an old medieval tradition negative theology With the death of this new god might a sensitivity reappear for transcendence Here the editors want to offer a platform where contemporary philosophers of culture can again pose the question of speaking about God

**The Negative Theology of Nund Rishi** Abir Bazaz, 2024-06-27 An extensive critical study of the poetry of Nund Rishi a revered and renowned Sufi of medieval Kashmir

**Negative Theology** Johannes Aakjær Steenbuch, 2022-09-23 How do we speak about

God if God is ineffable This paradoxical question lies at the heart of one of the strangest traditions of philosophical and theological thought negative theology As a tradition of thought negative or apophatic theology can be traced back to the convergence of Greek philosophy with Jewish and Christian theology in the first century CE Beginning with a seemingly simple claim about the ineffability or unsayability of God negative theology evolved into a complex tradition of thought and spirituality Today together with a growing interest in patristic and medieval studies negative theology enjoys renewed attention in contemporary philosophy and theology This short introduction presents an overview of how the tradition developed from antiquity until present      *Re-thinking Dionysius the Areopagite* Sarah Coakley, Charles M. Stang, 2011-08-24

Dionysius the Areopagite the early sixth century Christian writer bridged Christianity and neo Platonist philosophy Bringing together a team of international scholars this volume surveys how Dionysius s thought and work has been interpreted in both East and West up to the present day One of the first volumes in English to survey the reception history of Dionysian thought both East and West Provides a clear account of both modern and post modern debates about Dionysius s standing as philosopher and Christian theologian Examines the contrasts between Dionysius s own pre modern concerns and those of the post modern philosophical tradition Highlights the great variety of historic readings of Dionysius and also considers new theories and interpretations Analyzes the main points of hermeneutical contrast between East and West      Religion and the Critical Mind Anton K. Jacobs, 2012-07-10

Religion and the Critical Mind provides an overview of the Western heritage of the criticism of religion Anton Jacobs surveys criticisms from within and without religion from the time of the Hebrew prophets and classical Greek thinkers until the Enlightenment and shows how developments during the Renaissance Reformation and the scientific revolution laid foundations for later modern critiques While sympathetic to religion Jacobs listens carefully to its best critics and dedicates a chapter to each of the modern critics of religion Voltaire Marx Nietzsche Durkheim Freud and Russell He supplies context for their criticism and gauges their impact on religion While effectively arguing that there are only three real stances a modern person can take on religion and offering an apologia for all religions Jacobs makes a persuasive case in favor of religious participation      A Theology of Failure Marika Rose, 2019-05-07

Everyone agrees that theology has failed but the question of how to understand and respond to this failure is complex and contested Against both the radical orthodox attempt to return to a time before the theology s failure and the deconstructive theological attempt to open theology up to the hope of a future beyond failure Rose proposes an account of Christian identity as constituted by not despite failure Understanding failure as central to theology opens up new possibilities for confronting Christianity s violent and kyriarchal history and abandoning the attempt to discover a pure Christ outside of the grotesque materiality of the church The Christian mystical tradition begins with Dionysius the Areopagite s uncomfortable but productive conjunction of Christian theology and Neoplatonism The tensions generated by this are central to Dionysius s legacy visible not only in subsequent theological thought but also in much twentieth century continental philosophy as it seeks to disentangle itself

from its Christian ancestry A Theology of Failure shows how the work of Slavoj i ek represents an attempt to repeat the original move of Christian mystical theology bringing together the themes of language desire and transcendence not with Neoplatonism but with a materialist account of the world Tracing these themes through the work of Dionysius and Derrida and through contemporary debates about the gift violence and revolution this book offers a critical theological engagement with i ek s account of social and political transformation showing how i ek s work makes possible a materialist reading of apophatic theology and Christian identity *Exploring Apophasis Across Traditions: Upanishads and Medieval Christianity*

Sebastian Velassery,2025-03-07 This book delves into the ethics of apophasis across ancient Indian philosophy pre Socratic Greek thinkers and early medieval Christianity The chapters explore apophasis in the Upanishads the Rig Veda and Sankara s Advaita Vedanta The author also offers insights into the evolution of apophasis in the Western tradition moving from Heraclitus and early Christianity to medieval Christianity An insightful exploration provides a rich dialogue between traditions and makes it an interesting read for scholars and students worldwide in theology and philosophy

**A Genealogy of Marion's Philosophy of Religion** Tamsin Jones,2011-02-15 Tamsin Jones believes that locating Jean Luc Marion solely within theological or phenomenological discourse undermines the coherence of his intellectual and philosophical enterprise Through a comparative examination of Marion s interpretation and use of Dionysius the Areopagite and Gregory of Nyssa Jones evaluates the interplay of the manifestation and hiddenness of phenomena By placing Marion against the backdrop of these Greek fathers Jones sharpens the tension between Marion s rigorous method and its intended purpose a safeguard against idolatry At once situated at the crossroads of the debate over the turn to religion in French phenomenology and an inquiry into the retrieval of early Christian writings within this discourse A Genealogy of Marion s Philosophy of Religion opens up a new view of the phenomenology of religious experience *Preaching After God* Phil Snider,2012-08-01

*Preaching After God* is written for progressive preachers trying to find ways to effectively communicate with those who increasingly identify as the nones i e those who aren t sure what to make of God and or Christianity including those who believe in God some of the time or none of the time or all of the time which Snider tends to think includes all of us some of the time and some of us all of the time By drawing on the insights of several prominent postmodern theologians and philosophers Snider provides possibilities for preaching that highly resonate with postmodern listeners who are often suspect of religion Six lectionary based sermons are included as examples [www.philsnider.net](http://www.philsnider.net)

**Gadamer and the Question of the Divine** Walter Lammi,2011-10-27 Gadamer and the Question of the Divine uncovers a neglected side of Gadamer s thought namely his life long concern with the question of the divine Not only is this an issue of fundamental importance to philosophical hermeneutics but it also contributes to what Gadamer considered to be the most urgent task of our time a conceptual dialogue among religions New grounds for toleration among communities must be found and Gadamer s study of the divine provides both a model and a starting place for doing so In setting forth a conceptual narrative for global dialogue

about religious transcendence Gadamer is the pre eminent twentieth century philosopher of the divine Gadamer s study of the divine is an application of philosophical hermeneutics and phenomenological in its descriptions of temporality and the experience of art Walter Lammi shows how Gadamer provides us with a richly textured study of the divine that finds its bearings in Heidegger and the Greeks and suggests a path to questions of cosmology temporality and religious experience

**Negation and Knowledge of God: Neoplatonism and Christianity** Daniel Jugrin,2017-10-06 It is not soul not intellect not imagination opinion reason and not understanding not logos not intellection not spoken not thought not number not order not greatness not smallness not equality not inequality not likeness not unlikeness not having stood not moved not at rest not powerful not intepowerful not light not living not life not eternity not time not intellectual contact with it not knowledge not truth not kingship not wisdom not one not unity not divinity not goodness not spirit not sonhood not fatherhood not something among what is not not something among what is not known as it is by beings not a knower of beings as they are There is neither logos name or knowledge of it It is neither dark nor light not error and not truth There is universally neither postulation nor abstraction of it While there are produced postulations and abstractions of those after it we neither postulate nor abstract it Since beyond all postulation is the all complete and single Cause of all beyond all abstraction the preeminence of that absolutely free of all and beyond the whole Dionysius the Areopagite De mystica theologia V *Karl Barth in Conversation* W. Travis McMaken,David W. Congdon,2014-02-18 Karl Barth was an eminently conversational theologian and with the Internet revolution we live today in an eminently conversational age Being the proceedings of the 2010 Karl Barth Blog Conference Karl Barth in Conversation brings these two factors together in order to advance the dialogue about Barth s theology and extend the online conversation to new audiences With conversation partners ranging from Wesley to i ek from Schleiermacher to Jenson from Hauerwas to the Coen brothers this volume opens up exciting new horizons for exploring Barth s immense contribution to church and world The contributors who represent a young new generation of academic theologians bring a fresh perspective to a topic the theology of Karl Barth that often seems to have exhausted its range of possibilities This book proves that there is still a great deal of uncharted territory in the field of Barth studies Today more than forty years since the Swiss theologian s death the conversation is as lively as ever

*Luther after Derrida* Marisa Strizzi,2023-04-15 This book creatively engages Martin Luther s theology and Jacques Derrida s deconstruction in a systematic theological enterprise Guided by the general question of how to think about theology in postmodern times within a given tradition Marisa Strizzi meticulously follows deconstruction at work focusing on distinctive theological elaborations She argues that Luther s theology has a significant deconstructive drive and through the thorough reading of texts illustrates the ways in which such theology is interactive with the thought of Derrida Intersections echoes and mirrors allow a happy exchange in which the vital theological topics of Luther meet key deconstructive motifs Thus the cross the Deus absconditus scriptura fides gratia and Christo encounter khora criture the gift faith the messianic

and autoimmune sovereignty Strizzi solidly sustains that the deconstructive reading of theological traditions proves to be a critical constructive way of honoring them *The Unspeakable Art of Bill Viola* Ronald R. Bernier, 2014-05-19 The breach of art from religion is just one of the many unhappy legacies of modernism There was a time however when the aesthetic and the spiritual were of a piece This study of the work of American video artist Bill Viola considers the possible reemergence of a theological dimension to contemporary art a reenchantment of art as some have called it Using the high tech apparatus of modern video Viola's art is rooted precisely in this theological tradition of transcendent mystical experience and spiritual self concentration The technological apotheosis of modern image making high speed film high definition video LCD and plasma screens and sophisticated sound recording are put to use by Viola in ways that significantly challenge prevailing intellectual and artistic traditions and return us to the power of the Sublime that which by definition defeats language Viola's art as such converges with postmodern notions of the unrepresentable and with the ancient theological tradition of apophysis speaking away or unsaying The fullness of meaning then appears only as a promise of presence through embodied absence neither fully here and now nor entirely elsewhere and beyond This study seeks to define through the work of a courageous and thoughtful contemporary artist the theological sublime as an aesthetic of revelation Sanctum Sanctorum Justin Mandela Roberts, 2019-11-11 This book seeks to answer the question What is holiness What do we talk about when we talk about holiness We might describe many things as holy but as Socrates says what is the essential aspect by which all holy acts are holy Sanctum Sanctorum gives an account of the holy from within the Christian participatory tradition and argues that holiness is included in a special category of divine names that Christian metaphysics calls transcendentals which are five being one truth goodness and beauty Moreover holiness stands in a hierarchical relationship to the other five transcendentals as the culmination or concentration of the rest Only by understanding holiness as the head of the transcendentals as the transcendental can one account for all the complexity the idea of the holy conjures Therefore holiness is the transcendental of the transcendentals It adds the aspect of reverence to existence and as such it is constituted by the formula sanctum sanctorum Holy of holies which extends from the divine nature through the triune life to all creation

**The Noetics of Nature** Bruce V. Foltz, 2013-11-11 Contemplative or noetic knowledge has traditionally been seen as the highest mode of understanding a view that persists both in many non Western cultures and in Eastern Christianity where theoria physike or the illumined understanding of creation that follows the purification of the heart is seen to provide deeper insights into nature than the discursive rationality modernity has used to dominate and conquer it Working from texts in Eastern Orthodox philosophy and theology not widely known in the West as well as a variety of sources including mystics such as the Sufi Ibn Arabi poets such as Basho Traherne Blake Hlderlin and Hopkins and nature writers such as Muir Thoreau and Dillard The Noetics of Nature challenges both the primacy of the natural sciences in environmental thought and the conventional view first advanced by Lynn White Jr that Christian theology is somehow responsible for the environmental

crisis Instead Foltz concludes that the ancient Christian view of creation as iconic its holy beauty manifesting the divine energies and constituting a primal mode of divine revelation offers the best prospect for the radical reversal that is needed in our relation to the natural environment *The Trace of God* Edward Baring, Peter E. Gordon, 2021-05-20 Derrida's most lasting legacy might well be his writings on religion If the perplexed seek a guide they can do no better than this excellent volume Warren Breckman University of Pennsylvania Jacques Derrida's writings on the question of religion have played a crucial role in the transformation of scholarly debate across the globe *The Trace of God* provides a compact introduction to this debate It considers Derrida's fraught relationship to Judaism and his Jewish identity broaches the question of Derrida's relation to the Western Christian tradition and examines both the points of contact and the silences in Derrida's treatment of Islam An astonishingly fresh and vivid set of essays that not only cast new light on the work of the greatest philosophical provocateur of the late twentieth century but also provide food for reflecting today on the relations among violence modernity secularity and religion Allan Megill University of Virginia

**The Philosophy of Religion in Post-Revolutionary Iran** Heydar Shadi, 2018-11-16 This book explores the intellectual discourse in post revolutionary Iran It focuses on Abdolkarim Soroush a leading Muslim liberal thinker whose theory of religion is regarded as highly relevant to the current theological and intellectual dynamics in the Islamic world *The Philosophy of Religion in Post Revolutionary Iran* discusses why and how Soroush's thought has developed from an Islamic apologetic modernist theology in the 1970s to a liberal theory about religion in post revolutionary Iran Through a close and detailed analysis of Soroush's main theories the book argues that Soroush's thought evolved through reception of post positivist epistemology and interaction with Islamism in practice into a historicist and pluralist theory of religion a theory that regards religion including Islam as being a contextual and historical dialogue between man and the Absolute The book also highlights some shortcomings of Soroush's reform project Specifically it notes that Soroush consciously or unconsciously has not yet admitted many extensive consequences of his theories such as those relating to historicity of religious rituals ibadat or recognition of the post Mohammadan revelations and religions In addition some other features and implications of Soroush's thought such as a historical critical approach to the Koran post secular and post Islamist theologies and his dialogical approach that goes beyond the Orientalism Occidentalism dichotomy are discussed Providing a detailed overview on this leading Muslim thinker this book will appeal to students and scholars of Islamic Philosophy Middle East Studies and Philosophy of Religion

*Expressing the Inexpressible in Lyotard and Pseudo-Dionysius* Mélanie V. Walton, 2013-08-29 Testimony demands the witness to demonstrate her knowledge that knowledge that she must have by the fact of being a witness to something even if this something exceeds the possibility of expression by any means amenable to verification *Expressing the Inexpressible in Lyotard and Pseudo Dionysius Bearing Witness as Spiritual Exercise* rigorously studies the inexpressible expression provoked by two illustrative examples the silenced testimony of the Holocaust survivor in Jean François Lyotard's *The Differend* and the

religious faithful in Pseudo Dionysius The Divine Names Though coming from vastly different philosophical moments the methods used by Lyotard and Dionysius prove to dissolve the apparent heterogeneity of postmodernism and Neoplatonist Christian mysticism and open radical new lines of dialogue M lanie Victoria Walton critically evaluates each thinker and tradition rethinks witnessing testimony sublimity and apophaticism and then engages them together to forge a new reading of silence and eros The resulting insights will be especially valuable to students and scholars of Continental philosophy philosophy of religion theology and religious studies medieval studies and Holocaust studies
