Sheshalatha Reddy,2013-10-15 Focusing specifically on the poetic construction of India Mapping the Nation offers a broad selection of poetry written by Indians in English during the period 1870 1920 Centering upon the mapping of India both as a regional location and as a poetic ideal this unique anthology presents poetry from various geographical nodal points of the subcontinent as well as that written in the imperial metropole of England to illustrate how the variety of India s poetical imagining corresponded to the diversity of her inhabitants and geography **The Cabinet of Poetry, Containing the Best Entire Pieces ... in the Works of the British Poets. [Edited by S. J. Pratt. With Portraits by C. Watson.]** Mr. Pratt (Samuel Jackson),1808 **Societal Impact of Spaceflight** Steven J. Dick,Roger D. Launius,2007 Since the dawn of spaceflight advocates of a robust space effort have argued that human activity beyond Earth makes a significant difference in everyday life Assertions abound about the impact of spaceflight on society and its relationship to the larger contours of human existence Fifty years after the Space Age began it is time to examine the effects of spaceflight on society in a historically rigorous way Has the Space Age indeed had a significant effect on society If so what are those influences What do we mean by an impact on society And what parts of society Conversely has society had any effect on spaceflight What would be different had there been no Space Age The purpose of this volume is to examine these and related questions through scholarly research making use especially of the tools of the historian and the broader social sciences and humanities Herein a stellar array of scholars does just that and arrives at sometimes surprising conclusions **The Materiality of Color** Andrea Feeser,2017-07-05 Although much has been written on the aesthetic value of color there are other values that adhere to it with economic and social values among them Through case studies of particular colors and colored objects this volume demonstrates just how complex the history of color is by focusing on the diverse social and cultural meanings of color the trouble pain and suffering behind the production and application of these colors the difficult technical processes for making and applying color and the intricacy of commercial exchanges and knowledge transfers as commodities and techniques moved from one region to another By emphasizing color s materiality the way in which it was produced exchanged and used by artisans artists and craftspersons contributors draw attention to the disjuncture between the beauty of color and the blood sweat and tears that went into its production circulation and application as well as to the complicated and varied social meanings attached to color within specific historical and social contexts This book captures color s global history with chapters on indigo plantations in India and the American South cochineal production in colonial Oaxaca the taste for brightly colored Chinese objects in Europe and the thriving trade in vermilion between Europeans and Native Americans To underscore the complexity of the technical knowledge behind color production there are chapters on the discovery of Prussian blue Brazilian feather techn and wallpaper production To sound the depths of color s capacity for social and cultural meaning making there are chapters that explore the significance of black ink in Shakespeare s sonnets red threads in women s needlework samplers blues in Mayan sacred statuary and greens and yellows in colored glass bracelets that were traded

across the Arabian desert in the late Middle Ages The purpose of this book is to recover color s complex and sometimes morally troubling past and in doing so **The History of Flying** Charles H.
