Flora of Okinawa and the Southern Ryukyu Islands Egbert Hamilton Walker, 1976 Flora of Okinawa and the Southern Ryukyu Islands with the Assistance and Collaboration of Many Okinawan, Japanese, Chinese, and Mestern Guide to Standard Floras of the World David G. Frodin, 2001-06-14 This 2001 book provides a Botanists ,1976 selective annotated bibliography of the principal floras and related works of inventory for vascular plants The second edition was completely updated and expanded to take into account the substantial literature of the late twentieth century and features a more fully developed review of the history of floristic documentation. The works covered are principally specialist publications such as floras checklists distribution atlases systematic iconographies and enumerations or catalogues although a relatively few more popularly oriented books are also included The Guide is organised in ten geographical divisions with these successively divided into regions and units each of which is prefaced with a historical review of floristic studies In addition to the bibliography the book includes general chapters on botanical bibliography the history of floras and general principles and current trends plus an appendix on bibliographic searching a lexicon of serial abbreviations and author and geographical indexes Nature, Ritual, and Society in Japan's Ryukyu Islands Arne Røkkum, 2006-04-18 Despite their small area the southern islands of Japan can be seen as stepping stones towards a more nuanced view of cultural osmosis between Japan and the outside world This book presents an ethnographic portrayal of the people of the Southern Ryukyu Islands and their world In particular it explores the mind of the islanders their relationship with the natural world their social relationships and the rituals which represent and give expression to these relationships Based on extensive original research including participant observation the book allows the authentic voices of the Ryukyu Island worlds to speak for themselves as well as setting the work in the wider context of anthropology Japanese Studies and Pacific Island studies Vegetation Science in Forestry Elgene E.
