Florence Nightingale Visionary Women S:

Women and the Pamphlet Culture of Revolutionary England, 1640-1660 Marcus Nevitt, 2017-03-02 Offering an analysis of the ways in which groups of non aristocratic women circumvented a number of interdictions against female participation in the pamphlet culture of revolutionary England this book is primarily a study of female agency Despite the fact that pamphlets or cheap unbound books have recently been located among the most inclusive or democratic aspects of the social life of early modern England this study provides a more gender sensitive picture Marcus Nevitt argues instead that throughout the revolutionary decades pamphlet culture was actually constructed around the public silence and exclusion of women In support of his thesis he discusses more familiar seventeenth century authors such as John Milton John Selden and Thomas Edwards in relation to the less canonical but equally forceful writings of Katherine Chidley Elizabeth Poole Mary Pope Parliament Joan and a large number of Quaker women This is the first sustained study of the relationship between female agency and cheap print throughout the revolutionary decades 1640 to 1660 It adds to the study of gender in the field of the English Revolution by engaging with recent work in the history of the book stressing the materiality of texts and the means and physical processes by which women s writing emerged through the printing press and networks of publication and dissemination It will stimulate welcome debate about the nature and limits of discursive freedom in the early modern period and for women in particular

In the Thick of the Fight Carolyn P. Collette, 2013-10-21 One of the most memorable images of the British women's suffrage movement occurred on June 4 Derby Day 1913 As the field of horses approached a turning at Epsom militant suffragette Emily Wilding Davison ducked out from under the railing and ran onto the track reaching for the bridle of the King's horse and was killed in the collision While her death transformed her into a heroine it all but erased her identity To identify what impelled Davison to suffer multiple imprisonments to experience the torture of force feedings and the insults of hostile members of the crowds who came to hear her speak Carolyn P Collette explores a largely ignored source the writing to which Davison dedicated so much time and effort during the years from 1908 to 1913 Davison's writing is an implicit apology for why she lived the life of a militant suffragette and where she continually revisits and restates the principles that guided her that woman suffrage was necessary to improve the lives of men women and children that the freedom and justice women

sought was sanctioned by God and unjustly withheld by humans whose opposition constituted a tyranny that had to be opposed and that the evolution of human progress demanded that women become fully equal citizens of their nation in every respect politically economically and culturally In the Thick of the Fight makes available for the first time the archive of published and unpublished writings of Emily Wilding Davison Collette reorients both scholarly and public attention away from a single defining event to the complexity of Davison s contributions to modern feminist discourse giving the reader a sense of the vibrancy and diversity of Davison s suffrage writings

Florence Nightingale's Spiritual Journey: Biblical Annotations, Sermons and Journal Notes Lynn McDonald,2006-01-01 Florence Nightingale 1820 1910 is widely known as the heroine of the Crimean War and the founder of the modern profession of nursing She was also a scholar and political activist who wrote and worked assiduously on many reform causes for more than forty years This series will confirm Nightingale as an important and significant nineteenth century scholar and illustrate how she integrated her scholarship with political activism Indispensable to scholars and accessible and revealing to the general reader it will show there is much more to know about Florence Nightingale than the lady with the lamp Although a life long member of the Church of England Nightingale has been described as both a Unitarian and a significant nineteenth century mystic Volume 2 begins with an introduction to the beliefs influences and practices of this complex person The second and largest part of this volume consists of Nightingale s biblical annotations made at various stages of her life some dated some not The third part of volume 2 contains her journal notes including her diary for 1877 which is published here for the first time Much of this material is highly personal even confessional in nature Some of it is profoundly moving and will serve to show the complexity and power of Nightingale s faith Currently Volumes 1 to 11 are available in e book version by subscription or from university and college libraries through the following vendors Canadian Electronic Library Ebrary MyiLibrary and Netlibrary

The Oxford Encyclopedia of Women in World History Bonnie G. Smith,2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative

Victorian Women's Poetry F. Elizabeth Gray, 2009-09-10 Women in the Victorian period were acknowledged to be the religious sex but their relationship to the doctrines practices and hierarchies of Christianity was both highly circumscribed which has been well documented and complexly creative which has not Gray visits the importance of the literature of Christian devotion to women s creative lives through an examination of the varied ways in which Victorian women reproduced and recreated traditional Christian texts in their own poetic texts Investigating how women poets redeployed the

discourse of Christianity to uncover the multiple voices of the scriptures to expand identity and gender constructions and to question traditional narratives and processes of authorization Gray contends that women found in religious poetry unexpected liberating possibilities Taking into account multiple voices from the best known female poets of the day to some of the most obscure this study provides a comprehensive account of Victorian women's religious poetic creativity and argues that this body of work helped shape the development of the lyric in the Victorian period **The Rise of Caring Power**

Annemieke van Drenth, Francisca de Haan, 1999 This original study discusses the role of women in developing and dispersing caring power and vice versa the role of caring power in constituting women as modern social subjects processes which began around 1800 Based on the historian philosopher Foucault's concept of pastoral power caring power also takes into account the vital role played by gender Both humanitarian and religious motives fostered the ideal of serving the well being of individual others and thereby the interest of society as a whole With the rise of caring power this book argues women began to feel responsible for those of their own sex and to organize themselves in all female organizations In the process they carved out new gender identities for themselves and the women in their care The authors illustrate this profound historical change with the work of the reformers Elizabeth Fry 1780-1845 and Josephine Butler 1828-1906 and trace their impact in Britain and the Netherlands **Healing the Nightingales** Jackie Mulanax, 2006-03-01 One hundred years ago Florence
