**History of Florence** Niccolò Machiavelli,2015-06-17 Florentine Histories is a historical account by Italian Renaissance political philosopher and writer Niccolo Machiavelli first published posthumously in 1532 The composition of the work presented a problem for it was clear that the commission was not meant to give him the opportunity to eulogize republican Florence of which Machiavelli had been titled il segretario the secretary par excellence What was expected of him if not a glorification of the Medici family was a treatise without polemics and tending to show the present state of things as a natural

evolution The perplexities of the author leaked through from some letters of his rich collection to Francesco Guicciardini on August 30 1524 The structure of the work quite contorted illustrates the difficulty of the author The first of the eight books is a general picture of the history of Europe from the fall of the Western Roman Empire to 1215 the second book actually begins to discuss the history of Florence with the narration of the feud between Buondelmenti Donati and Uberti Amidei that according to tradition corroborated by Dante would unchain the conflict between Guelphs and Ghibellines in the city The books II III and IV narrate the history before the Medici rise while the last four speak of the fight for power that ended with the Medicean lordship The eighth book closes with the death of Lorenzo il Magnifico on 1492 with the end of the fragile peace that Lorenzo's politics of balance had carried The author made an effort to show under an altogether favorable light personalities like Cosimo il Vecchio and Lorenzo il Magnifico

**History of Florence and of the Affairs of Italy from the Earliest Times to the Death of Lorenzo the Magnificent** By Niccolo Machiavelli Commentary and introduction by Hugo Albert Rennert Niccolo Machiavelli the first great Italian historian and one of the most eminent political writers of any age or country was born at Florence May 3 1469 He was of an old though not wealthy Tuscan family his father who was a jurist dying when Niccolo was sixteen years old We know nothing of Machiavelli's youth and little about his studies He does not seem to have received the usual humanistic education of his time as he knew no Greek The first notice of Machiavelli is in 1498 when we find him holding the office of Secretary in the second Chancery of the Signoria which office he retained till the downfall of the Florentine Republic in 1512 His unusual ability was soon recognized and in 1500 he was sent on a mission to Louis XII of France and afterward on an embassy to Cesare Borgia the lord of Romagna at Urbino Machiavelli's report and description of this and subsequent embassies to this prince shows his undisguised admiration for the courage and cunning of Cesare who was a master in the application of the principles afterwards exposed in such a skillful and uncompromising manner by Machiavelli in his Prince
