Sponsler, 2021-05-11 The culture of medieval Spain was anything nut homogeneous It varied not only through time with the approach of the Renaissance but also geographically with great differences between north and south In this study author Lucy A Sponsler illuminates the role of women during this interesting period by exploring their portrayal in literature *Women in the Medieval Spanish Epic and Lyric Traditions* examines the various ways in which women were portrayed in the formative years of medieval society as well as the development of these views as new social mores evolved Employing a thorough examination of the literature Sponsler reveals that a high degree of respect was demonstrated toward women in Spanish prose and poetry of this period Her study sheds new light on the role of women in relation to men family and social organization in medieval Spain **Black Africans in Renaissance Europe** T. F. Earle, K. J. P.
