Successful School Restructuring under NCLB: School Vignettes

Objective

Present vignettes of five schools that have formally restructured under NCLB and sufficiently raised academic outcomes to demonstrate AYP.

Guiding Questions

- What approach did the schools use to restructure?
- What if any role did the school leaders play in developing and implementing restructuring efforts?
- What if any role did external entities play in the restructuring effort (e.g., district, state department of education, or external consultants)?
- What if any additional resources did the schools obtain in order to restructure?
- What do internal and external actors credit for the successful restructuring?
- What if any barriers did the school have to overcome in order to successfully restructure?

School Selection

- Difficult to identify schools that have exited, no central data base
- Identified schools in AL, CA, IL, GA, MD, MT, NY, and TN

Next Steps

- Conduct interviews with personnel from central office and individual schools

Strengths-Based School Counseling JohnP. Galassi, 2017-07-05 Despite calls for a more preventive and developmental mode of functioning school counseling has tended to be driven by a reactive and sometimes crisis orientation Like social workers and school counseling and clinical psychologists school counselors typically function to alleviate deficits often in a small percentage of the students they serve Although this orientation has served school counselors well in many instances it is not empowering it does not serve all students and it does not replace those deficits with the type of positive characteristics and abilities that schools are attempting to develop This is the first book to provide a comprehensive look at the theory research and intervention strategies that comprise a strengths based developmental approach to school counseling In keeping with ASCA recommendations the Strengths Based School Counseling SBSC framework discusses academic personal social and career development outcomes for all students at the elementary middle and secondary school levels Other key features include integrative framework SBSC builds upon contemporary research from a variety of areas school counseling developmental psychology school psychology education positive psychology resiliency and social work evidence based interventions detailed examples of successful evidence based interventions and environments are presented at the elementary middle and high school levels for each major developmental area academic personal social and career identified in ASCA s National Model readability and pedagogy beautifully written the text includes lists of key points tables of student strengths illustrative examples and student exercises

Public Health Ethics Stephen Holland, 2015-01-20 How far should we go in protecting and promoting public health Can we force people to give up unhealthy habits and make healthier choices Should we stop treating smokers who refuse to give up smoking for example or put a tax on fatty foods and ban vending machines in schools to address the obesity epidemic Or can we nudge people towards healthy options without compromising their freedom to choose Such questions are at the heart of public health ethics In this second edition of his well respected textbook Stephen Holland shows that to understand and debate these issues requires philosophy moral philosophies including utilitarianism and deontology as well as political philosophies such as liberalism and communitarianism And philosophy informs other aspects of public health such as epidemiology health promotion and screening The new edition has been fully revised and updated to reflect recent developments in the field There is a new chapter on the ethics of harm reduction looking at policies which aim to reduce the harmful effects of unhealthy behaviour such as using illicit drugs as opposed to trying to get people to abstain Additional material has been added on the recent interest in nudging people towards more healthy choices in a new theoretical section on libertarian paternalism as well as more on debates on the ethics of other current public health policies such as using financial incentives to get people to take more responsibility for their own health Public Health Ethics provides a lively accessible and philosophically informed introduction to such issues As well as being an ideal textbook for students taking courses in public health ethics Holland s systematic discussion of the ethics of public health will engage and inform the more advanced reader too
