Kreps,2019-09-19 I began this monograph which at the time was a nascent paper with the objective of understanding how and how well continuous time models of economic phenomena and in particular models that employ Brownian motion relate to near by discrete time models We know by examples that the connections are sometimes not altogether obvious see for instance Fudenberg and Levine 2009 and Sadzik and Stacchetti 2015 So it seemed to me a general theory connecting the two types of models ought to be available **Economic Thought and Discourse in the 20th Century** Warren J. Econometrics and the Philosophy of Economics Bernt P. Stigum,2015-12-29

As most econometricians will readily agree the data used in applied econometrics seldom provide accurate measurements for

the pertinent theory's variables Here Bernt Stigum offers the first systematic and theoretically sound way of accounting for such inaccuracies He and a distinguished group of contributors bridge econometrics and the philosophy of economics two topics that seem worlds apart They ask How is a science of economics possible The answer is elusive Economic theory seems to be about abstract ideas or it might be said about toys in a toy community How can a researcher with such tools learn anything about the social reality in which he or she lives This book shows that an econometrician with the proper understanding of economic theory and the right kind of questions can gain knowledge about characteristic features of the social world It addresses varied topics in both classical and Bayesian econometrics offering ample evidence that its answer to the fundamental question is sound The first book to comprehensively explore economic theory and econometrics simultaneously Econometrics and the Philosophy of Economics represents an authoritative account of contemporary economic methodology About a third of the chapters are authored or coauthored by Heather Anderson Erik Børn Christophe Bontemps Jeffrey A Dubin Harald E Goldstein Clive W J Granger David F Hendry Herman Ruge Jervell Dale W Jorgenson Hans Martin Krolzig Nils Lid Hjort Daniel L McFadden Grayham E Mizon Tore Schweder Geir Storvik and Herman K van Dijk
