Entre os temas abordados estão as principais teorias do comércio internacional, os principais instrumentos de política econômica, políticas fiscal, monetária, comercial e cambial, as barreiras ao comércio internacional, os principais organismos internacionais, as formas de integração econômica, a mobilidade de fatores, o balanço de pagamentos, os indicadores de risco, vulnerabilidade externa e risco país. O objetivo é proporcionar ao leitor um panorama sobre os aspectos essenciais da economia internacional e a importância do comércio internacional, possibilitando a reflexão sobre desafios da globalização para as pessoas, as empresas e os governos.

A Globalização e o Comércio Internacional Sandra Cristina Gregory Ghilardi, 2024-10-15 A globalização e o comércio internacional fazem parte de um conjunto fundamental do intercâmbio comercial mundial. Considerando a viabilidade da internacionalização das empresas no sentido de compreenderem a necessidade de estarem preparadas para o mercado externo, observou-se a importância de um estudo científico investigativo em pequenas e médias empresas (PMEs) para que estas também possam estar ativas nesse nicho comercial que abrange o comércio mundial. Graças à tecnologia da informação aliada aos demais parceiros de importação e exportação, podemos observar o avanço desde os tempos primitivos e o quanto é relevante estarmos preparados para esse comércio internacional globalizado. Dessa forma, afirmamos que este livro é fundamental para a importância uma vez que demonstra a necessidade de importar e exportar para poder participar desse mundo de intercâmbios de mercancias, onde internacionalizar se tornou uma questão de sobrevivência das PMEs e as oportunidades criadas através da globalização e da economia mundial são uma necessidade vital para estas. Destacamos como principais países com interesses comerciais Paraguai, Argentina, Brasil, China e Espanha, dando ênfase em exportação direta e indireta, assim como as barreiras que o comércio internacional enfrenta, tanto as tarifárias como as não tarifárias. Sabendo que o comércio internacional depende de sistema de transporte e aduaneiro, destacamos de forma minuciosa e detalhada a importância dessas parcerias, assim como os entraves possíveis.

Analisa o desempenho de dois programas de promoção das exportações com recursos públicos: o Programa de Financiamento das Exportações Proex e o BNDES Exim. Esses programas já estão consolidados e desempenham importante papel no comércio externo brasileiro. Devem ser revistos constantemente considerando a dinâmica do comércio internacional. Por meio de uma análise econômica constatou-se a real efetividade desses mecanismos no que concerne ao incremento das exportações brasileiras. A conclusão principal é que esses programas estão se tornando imprescindíveis para o incremento das exportações brasileiras.
